ARTICLE 01 OF 40

Article 2490: Continental Marshals

Henry Kissinger once said, and I quote: "Military men are damned stupid animals." I want you all to help prove him wrong. I am getting calls from all over this country from good men who want to serve as Continental Marshals. They are, universally, confused. Most of them want to serve as Marshals because it is the only such service they have heard about, or because it sounds more impressive than being a county deputy or a member of their state militia.

In the vast majority of the cases, these men are not being educated about the options, and therefore, aren't being profitably employed by the State Assemblies, which is where they need to be serving. Let us begin with the fact that once an actual County Sheriff is elected, he is the highest peacekeeping official in the nation--- within the borders of that county, he is the personification of the Public Law. Period. So, in terms of power, our elected Sheriffs, working in an unincorporated capacity, often without pay, outrank every other peacekeeping officer, including Continental Marshals and Federal Agents of all kinds.

He vastly outranks any private corporation's Law Enforcement Officers. Thus, the raw power of our law enforcement capability is vested in our sheriffs and most of these men should be concentrating on organizing the declared Americans in their counties and becoming either Sheriffs or Sheriff's Deputies, working close to home to protect their own families and neighbors. We have loyal LEO's who have been elected by an unwittingly foreign population of U.S. Citizens, men who still obey the constitutions, and we need to interface and work with them on an ever- increasing basis, to bring "both ends back to the middle".

There is no more important or higher role than the role of a local Sheriff and his local Deputies when it comes to enforcing and upholding the actual Public Law of this country, or the Constitutions, either. The fundamental problem is that Law Enforcement Officers (LEO's) are, by definition, working as Pinkertons for foreign corporations, and they are enforcing equally foreign statutory law on people who have been "presumed to be" part of a foreign population. 90% of the "presumed" foreign population are Americans who have been deliberately misidentified as "foreigners" in their own country. Those Americans need to be fully informed about their choices, but in the meantime, the LEO's need to be fully informed about this whole situation, too.

Thanks to Mack v. Prinz, these men are ALLOWED to enforce the Constitutions, but not REQUIRED to. The internet this week covered the story of a good cop who stood up against the culture of evil in the local police force --- and got fired. He should be working for us, not them, on a local level.

It is our job as Americans to make sure this all gets sorted out, to make sure the LEO's understand the capacity they are operating in as "private security agents", also working with the constitutional corporate sheriffs, and getting our own organizations together on the local level. People are crying out for the enforcement of the Public Law, for basic decency to prevail, and for their government to protect them. This happens first and foremost at the local level of the elected, unincorporated peacekeeping official known as the County Sheriff. In terms of local power, the next men in line are the Sheriff's Deputies, who can be "sworn in" from the general population of Americans in each County, just like in the old John Wayne movies.

It does not happen at the level of the Continental Marshals, and most of these recruits should be focused much closer to home. The State Militia is tasked to protect the borders and interests of the State, and yes, we call it a "State Militia", not a "State Defense Force" or any other new label. Remember that when names change, so may the meanings. You will find no references to "State Defense Forces" in the Constitutions, but you will find reference to our "well-regulated militia".

While County Sheriffs and Deputies are meant to provide enforcement of the Public Law and protect people in their homes and communities locally, State Militias are called upon in times of disaster and their fundamental role is to work out a defense plan for their State--- to protect its borders, assets, and people from "external" harm. Here is where you get Border Patrols, here is where you get soup kitchens and latrines when wildfires strike, here's where you get average men booted up and working together to enforce the Public Law and the Constitutions on the public roads and thoroughfares. The Public Law in this country is The Ten Commandments and the Constitutions dictate our relationship with the Federales --- what we owe them and what they owe us. It really is simple enough

so that anyone can be trained to enforce the Public Law and understand the limits of the federal government in a day, once you get down to it.

So, this is about "getting down to it", funneling these recruits into doing what most of them really want to do --- protect their local communities, families, and neighbors, and stop all the confusion about The Continental Marshals Service. Just as the Sheriffs and their Deputies protect their counties and the State Militias protect their States, the Continental Marshals protect the international land jurisdiction of the country as a whole. What does that mean? Well, what is the land?

The land is everything BELOW 6" of the soil surface. Think about that. It is everything that underlies everything else. It forms a vast seamless substrate underneath everything else, including the oceans.

This is an international realm, and it is under international law. International law comes in two flavors -- land and sea. Continental Marshals stand on the land, and their brethren, the U.S. Marshals float on the sea.

The first and fundamental job of the original "Federal Marshals" --- a term that encompassed functionaries operating in both jurisdictions, land and sea, was to protect the Post Offices. Our Post Offices. Most of our Post Offices were closed at the end of the Civil War, and only a few have straggled on with individual people serving as "Post Masters" on the land. See the difference?

Post Masters (land) versus Postmasters (sea). We have our own Post Offices, which are slowly reopening under the Civil Peace Flag of The United States of America. One of the chief duties of Continental Marshals is to protect our Post Masters and our Post Offices. For more insight, go to abodia.com.

I can see most of you scratching your heads. What? That is not quite the glamor job you had in mind. Being a Continental Marshal requires understanding Postal Law and enforcement of international law in general.

It requires understanding which "Powers" were retained under Amendment X in the international jurisdiction of the sea, and it requires being able to walk a thin line between international land and sea jurisdictions and interact appropriately with the U.S. (Territorial) Marshals who are tasked with protecting the US POSTAL SERVICE (USPS) and United States Post Offices. This position naturally involves intercepting contraband being shipped and smuggled across state lines and stopping human trafficking, working with the U.S. Marshals to prevent illegal transport of alcohol, tobacco and firearms, apprehending illegal aliens who are engaged in criminal activities, and working with the constitutional sheriffs and State Militia leaders when violations of constitutional guarantees occur--- for example, when "Federal Agents" do things like they did when they

ambushed LaVoy Finicum and murdered him in broad daylight in America. LaVoy had not formally declared himself as an American State National or as an American State Citizen, so these bastards thought they had the right to set up a military-style ambush and kill him.

And they got away with it by "presuming" him to be an "enemy combatant" in a war that ended in 1865. Think about that. It's tripe, but they use it to excuse their vicious and lawless actions, such as Waco and Ruby Ridge. This is also what they used to railroad the Colorado Nine and countless others.

I say this to underline the life and death importance of the 1779 Declaration for every American, and especially all those engaged in peacekeeping or law enforcement activities at any level, and the equal necessity of recording and publishing it in Public, hopefully with your own State Recording Secretary. We are a separate population, non-domestic with respect to the Territories and Possessions, non-domestic with respect to the Municipal Government authorized by the Constitutions. We are not Federales, but until we make this clear and official on the Public Record, they will continue to "presume" that we are one species of Federal Citizen or another, and we will be caught in their crossfire, because the two kinds of Federal Citizen are still pretending to be at war with each other and are being directed by the Pope and his minion in this matter, the Queen, to continue this farce on our shores. It behooves every American to stop whatever they are doing and realize the primal importance of bringing this "war" between our Federal Public Servants ---and their secretive collusion against us --- to an end.

It is especially important for anyone in any form of law enforcement to clearly grasp the overall situation and its implications. I have given you the broad outline of the various peacekeeping functions that need to be filled and I trust that it is now apparent that being a "Continental Marshal" is not what most recruits need to be, want to be, or can be. It should also be apparent that there is only one (1) valid Continental Marshals Service and it is uniquely vested under the authority of The United States of America, our Federation of unincorporated States. Nobody can run off and claim to be a "Continental Marshal" much less a "Chief Continental Marshal" without training and an official commission, badge, and ID issued by us.

Period. This is for your safety and ours. "The Continental Marshals Service" which we commissioned on May 22, 2015, is a Public Service. It cannot be copyrighted by, owned by, or defined as any kind of incorporated entity at all; it exists under sovereign patent, trademark, and copyright as an instrumentality of the States of the Union.

Anything that is incorporated and calling itself "the" Continental Marshals Service is infringing upon our prior sovereign patent, trademark, and copyright, in exactly the same way as the Scottish Interloper did in 1868, and with the same effect ---- fraud. Anyone who is charging around calling themselves a "Continental Marshal" without having the

specific training, commission, badge, and ID issued directly by The United States of America --- is impersonating a Continental Marshal and should be stopped. I have on my desk a thing purporting to be issued as the official "Continental Marshals Oath" that is being distributed under the equally purported "authority" of the "General Post Office". The United States of America has not issued nor authorized any such "Oath" and does not recognize any such "General Post Office".

Like many other such "oaths" and "offices" created by patriots acting out of school, it seems to have good intentions, but no lawful or legal authority, and is, in essence, a passport to jail on the same train that carried the Colorado Nine away. There are numerous "organizations" out there that have various stories about who and what they are, pretending to represent this country in some capacity or other. Without exception, their leaders have spent time in federal gaol. This current example appears to come from "Reign of Heavens Society".

Its leader, Keith Livingway, went to a Naval Yard Auction and bought some memorabilia left over from the Scottish Interloper's 1907 bankruptcy, including an original copy of The Articles of Confederation, which he thinks confers some magical ability on his part to claim it as "abandoned property" and use it to create his own Magic Kingdom "in the name of" Anyone operating under these delusions is most assuredly NOT a "Continental Marshal" of any kind or stripe, and they will also, most assuredly, be headed for jail. People who do not know who they are and who do not know the solid and logical basis of their authority and who do not understand the jurisdictions of the law, will unavoidably trespass or transgress and they will be arrested. I am telling you all right now that The United States of America has not authorized this "oath" and is not associated with these people calling themselves "Continental Marshals" and we are appalled by both the ignorance and the danger these developments represent.

Our Continental Marshals Service is not to be confused with any such renegade and foreign effort led by Keith Livingway or associated with him in any way, shape, or form. The same can be said for any other organization attempting to infringe on our patents, trademarks, and copyrights. If it isn't properly organized, if it isn't properly constituted, if it doesn't stand under a true sovereign patent, if its members are not all properly declared as American State Nationals while working in international jurisdiction, if they do not hold a proper international commission, if they do not have a badge and ID issued by The United States of America [Unincorporated] --- and most importantly, if they are not graduates of a rigorous training program approved by The United States of America, they are not our Continental Marshals. They may be patriots and they may be well-intentioned, but they are operating as outlaws and they are putting their lives at unnecessary risk by going off half-cocked and claiming to be something that they are not, and in all likelihood, something that they never intended or wanted to be, simply because

they don't know what Continental Marshals are or where they fit in the overall scheme of peacekeeping and law enforcement.

To them, it just "sounds good" --- and that is not enough or any excuse or reason for anyone to claim that they are "Continental Marshals" when they are not, and when they are not qualified to be acting in any such capacity. Please help reach out to these people and warn them of their error, just as I attempted to warn the Colorado Nine. Please also spread the word that they are NOT associated with The United States of America and not associated with our State Assemblies, even though they are again using the old "similar names" deceits and calling themselves after our Officers and attempting to operate "in our names". If there is any confusion about any of this in anyone's mind, it is time to call me and not leave it to your own devices.

When you enter international jurisdictions without knowing what you are doing, you are like a white boy fresh off the bus in Harlem. My advice and stern admonition is --- recognize what it is you need and where that need obligates you to serve. Most men wishing to support the Public Law and Constitution need to be working at the local level as Sheriffs, Sheriff's Deputies, and members of their Assembly's State Militia. All of our peacekeepers need to have 1779 Declarations at the very least, and to have State National or State Citizen political status published and in evidence on some Public Record, preferably with the State Assembly Recording Secretary, or if that is not yet possible, via the State of State Recorder's Office.

I fully realize the urgent need to protect innocent people, but that includes those who volunteer as peacekeepers, too. We owe it to them and to ourselves and to the honor of our country, to get this right.

ARTICLE 02 OF 40

Article 935: The Continental Marshals Service

Like most everything else that has been bungled up and misrepresented by the British Territorial Government run amok, there are supposed to be (2) Marshal's Services. The land jurisdiction officers were always called "Federal Marshals" because they work for the Federation of States --- The United States of America (Unincorporated). Federal Marshals are officers of the Postal District Courts. The sea jurisdiction officers were always called "US Marshals" because they work under the auspices of the Territorial United States and under its delegated authorities.

US Marshals are officers of the US District Courts. Since 1965 the run amok and misdirected British Territorial Government has usurped upon their employer, The United States of America, and has "presumed" to run the Federal Marshals Service under the auspices of the US Marshals Service. This has created a great deal of confusion both inside and outside the Service and general chaos overall because nobody has had a clear understanding of the different duties and jurisdictions to be covered by this supposedly "combined service" and most importantly, there is no delegated authority delegated to the US Territorial Government to manage the Federal Marshals or our Postal District Courts. As a result, in May 2016, the lawful government of The United States of America (Unincorporated) issued an Act of State restoring and re-naming the Federal Marshals Service as "The Continental Marshals Service" in an effort to make a clear and public distinction between the two jurisdictions, the two court systems and their related officers.

Since then, there has been continuing confusion about this "new" Marshals Service. We have had private companies trying to claim that they are Continental Marshals. We have had tribal governments trying to deputize Continental Marshals. Let us make this perfectly clear: there is exactly one (1) Continental Marshals Service mandated, patented, and copyrighted by the lawful government of The United States of America (Unincorporated).

No private company has the right or ability to adopt or infringe upon the name of The Continental Marshals Service and no tribal authority has permission to deputize Continental Marshals. Each Continental Marshal holds a direct commission from The United States of America (Unincorporated) and works directly for one of the Postal District Courts. As land jurisdiction officers they hold the highest international peacekeeping office in this country. They are uniquely responsible for addressing crimes of human trafficking, gun and drug running, interstate bank fraud, inland piracy, treaty violations, prevention of interstate scams and crimes across state borders.

They provide security for the Postal Services and investigate postal crimes. They take their non-sectarian Oath of Public Office directly under the auspices of The United States of America (Unincorporated) and they act with the full force and authority of the Federation of Sovereign States. All US Marshals are functioning under powers delegated to the Territorial United States which have now been recalled to The United States of America (Unincorporated) during their Territorial bankruptcy and "national emergency" ---and re-assigned. The Continental Marshals work closely and cooperatively with the US Marshals to coordinate joint operations across jurisdictional lines to prevent international crimes; in America, this duty and jurisdiction includes interstate crimes.

There are fifty US Marshals, one assigned to every Territorial State of State, plus deputies, and there are fifty Continental Marshals, one assigned to every State, plus deputies. Although Federal Marshals have been on duty practically from the formation of our government, The Continental Marshals Service, as such, is only two years old. A great deal of hard work has been devoted to restoring this honored force and the Postal District Courts owed to this country, but much more needs to be done, more training, and more resources devoted. In the meantime, please show these men and women the respect they deserve and help cut down on the amount of confusion by passing this information along to everyone concerned.

Study notes

ARTICLE 03 OF 40

Article 1899: For Confused Continental Marshals

The Continental Marshals Service serves the Land Jurisdiction of The United States of America. The Land Jurisdiction is an international jurisdiction belonging to The United States but controlled and operated by The United States of America. This is where we get "States of the Union" meaning "States belonging to the Union". These States are all Federation Compact States -- Wisconsin, Florida, Texas, California, Ohio..... not to be confused with "states of states".

The United States = the Union = republican states = national jurisdiction. The United States of America = the Federation = States of the Union = international jurisdiction. These unincorporated business structures are not to be confused with the Territorial United States Government doing business "in our name" as "the" United States of America, nor with the Municipal United States Government doing business in our name as "the" United States. From the foregoing you can see that Continental Marshals have enforcement authority under direct delegation from the unincorporated government that is in charge of the international jurisdiction owed to the States in general and that government is The United States of America.

They have primary responsibility for enforcing the Law of the Land including the Constitutions, the Un-revised United States Statutes-at-Large, Postal Laws and issues arising under the Reserved Powers of the Tenth Amendment. As international land jurisdiction Officers they are not under any authority vested in the individual States, are not part of the State Militias; like the sea-going US Marshals their turf is defined by

Districts --- in the case of Continental Marshals, they work within Postal Districts that may overlap several States. The structure mandated is that each State has one Chief Marshal and each Postal District has a District Chief Marshal, all organized under a single Chief Marshal of The United States of America. Deputy Marshals serve under the direction of the Chief Marshal for their State or the District Chief Marshal as the issues and needs may demand.

So long as the Constitutions are honored, the duties of the Continental Marshals are limited to protecting the land jurisdiction of this country as described: Constitutional Issues, UnRevised US Statutes-at-Large, Reserved Powers (Amendment X) and Postal Laws. If the Constitutions are vacated, the Continental Marshals become responsible for enforcing all aspects of international law within their Districts. Continental Marshals serve a unique interface between the County Sheriffs and the Federal Government; when County Sheriffs need assistance to enforce Constitutional guarantees, the Continental Marshals are there to assist; when County Sheriffs fail to uphold the Constitutional guarantees and other Natural and Unalienable Rights of the American People, the Continental Marshals can be called upon. Some of the men now serving as Continental Marshals are confused because they are being required to Expatriate from "the" United States.

They mistake "the" United States --- the foreign Municipal Government created by Article I, Section 8, Clause 17 for the actual United States: The United States. This confusion has been promoted for many decades by gangs of political lobbyists who have used it to commandeer the wealth and resources of our country. The Municipal United States Government is operating "in our names" because it exercises some of our Powers which were delegated to it under The Constitution of the United States. Please look carefully at the names of things --- The Constitution of the United States is referring to the Municipal United States Government, not The United States, just as The Constitution of the United States of America is referring to the Territorial United States Government and not The United States of America.

Continental Marshals must be able to identify the Federal Entities and know the constitutional limitations placed on those entities, must be able to tell the difference between an actual State and a State of State or STATE OF STATE incorporated franchise. Expatriating from both "the" Municipal and Territorial United States leaves Continental Marshals free to stand upon their lawful jurisdiction as Americans and allows them to enter the international land jurisdiction of The United States of America where they work as Lawful Persons engaged in the enforcement of international law. If they do not expatriate from the foreign Dual Citizenship capacity of US Government Employees, they cannot lawfully enter upon the Land Jurisdiction of this Country and do their jobs. More importantly, if they are confused with US Marshals, they may be mis-identified as threats or as charlatans impersonating US Marshals.

The only way to guard against this is to have their paperwork in order and properly recorded and a firm grasp on exactly what their duty and source of authority is. Duty: Enforce the Constitutions, the Unrevised United States Statutes-at-Large, the Postal Laws, and any issues arising under the Reserved Powers of Amendment X. Assist county peacekeeping officials and local people to enforce the Public Law owed to this country. Turf and Authority: Established Postal Districts and groupings of States within the Postal Districts.

Continental Marshals are Federal Postal District Officers under the original Federal Constitution, The Constitution for the united States of America, and they are working for The United States of America --- not the Queen, and not the Pope. I hope this clears up any misinformation/disinformation coming from Destry Payne and others. Any Marshal who has questions can contact me directly at avannavon@gmail.com and use "Continental Marshal Question" as the subject.

Study notes

ARTICLE 04 OF 40

Article 494: Clarification Regarding the Continental Marshals Service

There are a bunch of people who are wildly off-track trying to call their state militias "continental marshals" because they thought it "sounded good". And they haven't even bothered to correct their political status and re-flag their VESSELS in commerce to be recognized as Americans, so they are doing this as "United States Citizens"---- who aren't allowed to have militias much less continental marshals and have no guarantees under the actual constitution. I have tried and tried to talk sense into these boneheads and show them what they need to do and how they need to organize to no avail, despite the Public Law and the known history in front of their faces. Bruce Doucette and Michael R.

Hamilton have been provided with all the information I have given everyone else--about the need to expatriate, the need to re-flag, the need to establish jural assemblies, and so on. They will not listen and they are misleading others, needlessly endangering innocent people. As things now stand and until they wake up all the way, they are off in LaLa Land and trotting down the same path as all the other patriots now rotting in federal jails. The only Continental Marshals who have taken the correct oaths and who are operating in the correct manner and in the right jurisdiction are those under the command of Chief Marshal Tresa Haywood, and they are all members of the Continental Marshals Service.

Any claims otherwise are incorrect and bound to fail.

Study notes

ARTICLE 05 OF 40

Article 480: Continental Marshals - History You May Not Know

An unnecessary controversy is brewing. It began because the people reorganizing the Continental Marshals Service lacked knowledge and initially confused the Continental Marshals with State Militias. Well, if you make a mistake, and you are a grown-up, you correct the mistake and go forward with a minimum of fuss. If you are egotistical and ignorant, you blow it into a Big Deal because you cannot stand to be corrected in public and make improper assumptions.

Oh, well, fellas. The Continental Marshals are not land jurisdiction officers. They work for the land jurisdiction states and people living in their postal districts to protect and defend the international rights and powers retained by the states and people under Article 10---but that is not the same thing as being a state militia man. The Continental Marshals are not under the control or authority of any Grand Jury.

Grand Juries are authorized to investigate any crimes occurring in their jurisdiction and in that capacity only they have the right to investigate any criminal activity promulgated by any Continental Marshal. That, and handing down the results of their investigation as either an indictment or presentment, is where the power of the Grand Jury ends. Likewise, Continental Marshals are not under the control or authority of any State Justice. The Continental Marshals work for the Federal Postal District Courts set up by the people in their district for the purpose of prosecuting international crimes that occur in the undelegated jurisdiction created by Article X.

Many of the worst crimes that the people of this country have suffered have occurred in precisely this jurisdiction: inland piracy, unlawful conversion of assets, interstate bank fraud, kidnapping, press-ganging, human trafficking, enslavement, extortion and racketeering practiced on an interstate or international basis is all in the jurisdiction of the Continental Marshals and it is precisely because the Federal Marshals were no longer being funded by the renegade Congress that we have suffered all these crimes in our midst. The Continental Marshals enforce the orders of Federal Postal District Court judges, not State Justices. Now some State Justices are puffing themselves up and usurping powers never granted to them under any constitution and walking on the wrong side of the law and structure of the American Government that the rest of us are trying to restore. A fully functioning Continental Marshals Service is a key part of restoring the Checks and Balances and the complete American Common Law Court System we are owed.

Those who are attempting to co-opt or subvert the mission and authority of the Continental Marshals and "horn in" on the jurisdiction of the Continental Marshals Service to fatten themselves with authorities never granted to them, are just as bad or worse than those that have worked the Great Fraud against the American states and people in the first place. They are attempting to spawn a new fraud and to gain control of our retained international jurisdiction via new means. Nip it in the bud. In particular, the people of Louisiana need to rethink their choice of Justice Michael Hamilton and the Marshals need to rethink their confirmation of Marshal Edwards.

Both these men have spread this pernicious lie about the nature of the Continental Marshals office throughout the restored states and have also carried on a witch hunt against Chief Marshal Tresa Haywood. Upon investigation, all their complaints thus far have turned out to be hearsay, unsubstantiated gossip, false assumption on their own parts, and misunderstandings confusing the British system with the American system of government. This indicates a failure of their education or a failure of their devotion to restoring our lawful government, and either case, if they will not listen, learn, and correct their behavior, they need to be ousted from any office or position of authority they currently hold.

Study notes

ARTICLE 06 OF 40

Article 888: False Information About Continental Marshals

Some parties who are just waking up and making false assumptions are spreading the idea that Lincoln put "America" under the Lieber Code and that all "Marshals" are military police. WRONG. Lincoln had no ability to place "America" under Martial Law or put us under the Lieber Code. What he did was place the British Territorial United States government under martial law and the Lieber Code which has since morphed into the various Hague Conventions.

None of that has anything to do with us. The Territorial United States Government is a foreign government working under contract to provide governmental services for our states of the Union--- The United States of America (unincorporated). We are Third Parties with respect to them and we control the land and soil jurisdiction of this entire country. So, learn the jurisdictions and the nomenclature attached to those jurisdictions and stop spreading misinformation.

Our land jurisdiction is policed by Federal Marshals, not "US Marshals". Federal Marshals = Continental Marshals = Land Jurisdiction Marshals. US Marshals = Sea Jurisdiction Marshals. It is time everyone woke to hell up.

We have a country to govern and rights and prerogatives to exercise, along with the responsibilities that attach to those rights and prerogatives. We are our own civil government with our own "United States" flag--- the one with vertical stripes, thank you, and our own Federal Marshals Service, also. The idiots running the Territorial

Government have been so corrupt, so ignorant, and so misled that they have placed themselves and this entire country in jeopardy. Do not fall into any delusions concerning their "authority" or their competence with regard to their jurisdictional limits--- it's up to you to know who you are and what your lawful jurisdiction is and to know the difference between a Federal Marshal operating on the land (also known as a Continental Marshal) and a US Marshal operating in the international jurisdiction of the sea.

Get on your thinking caps and get educated or you will be part of the problem.

Study notes

ARTICLE 07 OF 40

Article 2066: Call Out for Continental Marshal Support

As all my Readers know, we re-commissioned the Federal Marshals in 2015 and renamed them Continental Marshals in an effort to draw a clear and firm distinction between their functions and jurisdiction compared to their counterparts, the United States Marshals. Our Continental Marshals function as Peacekeeping Officers in both the International Jurisdiction of the Land and the International Jurisdiction of the Sea -- Reserved Powers, Amendment X. You will note that all the gross criminality effecting the international securities markets and fiat currencies and all the human trafficking and interstate bank fraud problems got going at about the same time that the Federal Marshals were first "merged" into the United States Marshals Service, and then de-funded by the Municipal Congress operating 'in our names'. This left our international land jurisdiction largely undefended.

The U.S. Marshals have suffered the same problem as our Sheriffs, in that they have had to exercise their "individual discretion" in enforcing the Constitutions and have often had to do so against the wishes of the people signing their paychecks "for" us. That is, thank God, coming to an end as a result of your efforts to educate yourselves and reclaim your birthrights and organize your States of the Union. If you have not already done so---get moving now and go here to start: www.TheAmericanStatesAssembly.net.

It also ending because of the men and women stepping forward to serve as Continental Marshals and fill the empty shoes of our Federal Marshals, and because of the commitment of President Trump and his Administration to the American States and

People. This group effort from all sides of the various fences is the only way to peacefully and surely operate the government that this country is owed and which we are all heir to. Until the issues of funding are settled, all our offices are being staffed by volunteers, including the offices of the Continental Marshals. Our Senior Chief Marshal, Tresa Haywood, has gone above and beyond to do her Public Duty as an Officer of The United States of America --- and now she needs our help.

She has to move her home and offices. Donations can be sent through this GoFundMe link: https://www.gofundme.com/f/bxfsfp-homelessness?utm_source=facebook&utm_medium=social&utm_campaign=p_cp+sharesheet&fbclid=IwAR2bSq25eOdXi6h_cgRC3w9luy3ezQA0g9CSZaKiaprVvbYQmbGskp-Zy3k If you want to donate toward the moving expenses or for the Continental Marshals' Silver Stars Program (funds issuance of actual traditional silver star badges for the Marshals and for Sheriff Stars for Sheriffs who agree to honor their Public Duty to enforce the Constitutions) just write a note on PayPal donations to avannavon@gmail.com or on checks or money orders sent to: Anna Maria Riezinger, c/o Box 520994, Big Lake, Alaska 99652. We will make sure that the money gets sent where it needs to go and that every Marshal and Sheriff who stands up to defend and enforce the Constitutional guarantees we are owed, has the correct silver star badge designating them as Peacekeepers. This will allow us all to quickly identify those Officers who are working to defend and protect us and our country, versus those who are working merely as corporate private security personnel --- Pinkertons --- doing private "law enforcement" activities on our shores.

Article 514: Continental, Federal, Territorial, and Municipal.....

I know this is confusing, but until we all learn this basic information, there will continue to be confusion and chaos and all efforts to organize the lawful government we are owed will be crippled, so please take note and take the time to thoroughly understand the information: There are actually four versions of "United States" we deal with all the time--- we started out with two and that has grown to four over the past two hundred plus years. The Continental United States consists of fifty geographically defined states, for example, Ohio, Florida, and Maine. This is the United States belonging to the "free, independent and sovereign people of the United States" described in The Definitive Treaty of Peace, Paris, 1783. This is why Revolutionary War troops were called "Continental Soldiers".

These states together define the area over which the Public and Organic Law is exercised by the people (that is, state militias) acting as county and state jural assemblies---when and if they assemble and do their duty to selfgovern. These states defined and created The Constitution for the united States of America and that agreement in turn created both the Federal United States and the Territorial United States by splitting their own international jurisdiction into "delegated" and "un-delegated" powers (Articles of Amendment X). The Federal United States operates as fifty unincorporated politically defined States under names like "Ohio State" and "Florida State" and "Maine State" and these states control the undelegated portion of the international jurisdiction owed to the Continental United States. These are all owed a "republican form of government" and

operate under the United States Statutes at Large in international jurisdiction and State Session Laws at the state level.

These States are owed the Constitution of the United States of America The Territorial United States operates as 57 entities--- 50 "inchoate" incorporated States of States like the "State of California" and 7 Insular States (Guam, Puerto Rico, et alia)-- that in turn administer the delegated "powers" in international jurisdiction. These are all operated as franchises of the United States, Inc., and under the plenary power of Congress granted at Article I, Section 8, Clause 17, they are operated as democracies. They operate under State of State Statutes and Federal Code. These states also operate under the Constitution of the United States of America.

The Municipal United States has also grown out of Article I, Section 8, Clause 17--- this is a network of approximate 10,000 municipal city-state governments organized as municipalities and boroughs and STATES OF STATES like the STATE OF LOUISIANA and incorporated counties like JACKSON COUNTY all organized under the Municipal Law of Washington, DC, which is an independent international city-state akin to the Vatican or the Inner City of London, and again, under the plenary power granted to Congress, these are run as oligarchies subject to whatever whim Congress may have. They operate under Public Policies and Martial Common Law. These various municipal entities operate under the Constitution of the United States, and although this is a document we seldom see, it is the "constitution" that all the members of the Congress take their oaths to. It is up to each one of us to know our correct political status and declare it.

Are we state nationals (not employed by any government in any capacity) or State Citizens (acting in some official capacity for our states) of the Continental United States? Are we Federal Citizens? (that is, employees, public officials, or dependents of the United States of America?) Are we Territorial Citizens? (that is, employees, public officials, or dependents if the United States, Inc.?) Are we Municipal Citizens? (that is, employees, public officials or dependents of the UNITED STATES, INC.?) You have a right to be confused. And if you are reading this, you will shortly have cause to be outraged, too. It is up to you to exercise dominion over the Continental United States by actively participating in your local county and state jural assemblies and acting as deputies in support of your locally elected land jurisdiction Sheriff and also joining your state militia.

Most of us have been blissfully unaware of the necessity of doing this and our state republics have languished in a condition of zombie-like disuse for three generations, largely unoccupied and disserved. The Federal United States has struggled along, but with fewer and fewer state nationals and State Citizens acting in support of the effort of maintaining our international presence as states and people of the Union, it has gradually dimmed away, unable to operate effectively for lack of funds. Instead, the foreign Territorial United States and the Municipal United States run as profitmaking

commercial corporation enterprises have coerced their forms of "citizenship" on you and have seized upon your assets and have hypothecated debt against your labor, your businesses, your land, and your children's children's children. As a result of similar names deceit and coercive action, you have applied for and the perpetrators have issued franchises in your NAME---- JOHN MICHAEL DOE and most recently, JOHN M.

DOE---- and until you return the BIRTH CERTIFICATES related to these entities to the Secretary of the Treasury and appoint him your Fiduciary and tell him to return this (re-venue) these to the United States of America, U.S. Treasury, without recourse---- you continue to be "presumed" either a "United States Citizen" (Territorial) Corporation or a "citizen of the United States" (Municipal) Corporation. And all your assets are held in thrall as collateral backing these foreign corporations, instead of supporting your actual lawful government. Please bear in mind that there are no laws against raping, pillaging, murdering, pressganging, pirating, or committing genocide against corporations.

Please bear in mind that mischaracterizing a living man as a corporation is a crime known as "personage". Please also bear in mind that the act of bringing charges against such a "PERSON" is also a crime known as "barratry"----most infamously practiced by the Bar Associations. This treason began in 1861 with the onset of the illegal commercial mercenary conflict misnamed "The American Civil War" and has been carried on ever since by the rogue members of Congress and the various corporate CEOs heading up both the USA, Inc. and the US, Inc. It is time to put an end to it, and that can only be done by informing, educating, motivating, and properly organizing literally millions of Americans.

Article 515: Reply to Bruce Doucette Concerning the Continental Marshals Service

Reply to Bruce Doucette in Regard to the Continental Marshals Service Just because you say so, doesn't make it so. Unless, of course, we really do believe in the movie, "Bruce Almighty". Let us get this straight. The Continental Marshals Service was created over 200 years ago by George Washington.

It does not belong to you or to any single state or small group of states. It belongs to the united States of America. You and your pals started the move to fill the vacated offices of the Continental Marshals, but you did not create those offices and you have no delegated power to change them, abrogate them, assign them to a new jurisdiction, place them under different administrative management or meddle with them at all. Period.

Just as you have stepped forward and offered to serve your state as a State Justice, these men and women have stepped forward to serve the states (plural) to enforce the undelegated powers owed to the states and people in international jurisdiction. Everyone concerned is filling a vacated public office which belongs to all of us, either at the county, the state, or the federal level. Nobody has any ability or right to mess with or amend any part of the lawful government apart from the processes that have been established to do so. To date, Bruce, you have not corrected your own political status, have not posted a bond with the U.S.

Treasury, haven't bothered to look up the correct oath of office for State Justices of Colorado, and are basically off your trolley about all of this. Please get on board the Mothership. We are leaving this part of the galaxy and returning to Terra Firma--- the actual world, where actual people use actual money and participate in actual elections and elect actual public officials. If you are willing to fill a vacated public office and do what has to be done to make yourself both worthy and competent to serve that office and help lead the effort to restore our lawful government, then by all means, do so and Godspeed.

If not, get out of the way. You either work for the restoration of the lawful, de jure government or by ignorance and default, you work against the restoration of the lawful, de jure government. It is one way or the other and at this point, you are on the wrong side of the issue.

ARTICLE 10 OF 40

Article 519: To Kevin --- RE: Mission Priorities, Militias, and Continental Marshals

Kevin-- you and your friends are correct that you SHOULD be working first on getting your counties organized. That is precisely the mission I asked Bruce Doucette to undertake almost a year ago. And I gave him contact with the oldest functioning Post-Civil War Jural Assembly to help develop a solid program for all the other counties to follow. That is what I focused on as the most urgent need.

Instead of getting in contact with the already up and functioning and correctly organized Jural Assembly in Michigan, he and Roger Dowdell and others spent months blithering around trying to re-create the wheel. When Bruce discussed the Continental Marshals program with me, I assumed that he knew what he was talking about and that he was NOT talking about the state militias which are a separate force and work in a separate jurisdiction. I agree with you that the priority SHOULD be to organize the state militias and to do that in tandem with organizing the Jural Assemblies. For your information every American above the age of 21 is expected to either join their state militia and carry a gun or work in a support position.

It therefore makes sense that you build the militia at the same time you build the jural assemblies -- but since they did not do what I asked them to do with the jural assemblies, diddly squat got done organizing the militias, too. By all means, run don't walk -- get your local county jural assembly and your local militia set up and functioning FIRST. The

reason that I thought we were organizing Continental Marshals TOO was that most of the crimes that are causing so much suffering-- identity theft, foreclosures, bank fraud, unlawful conversion of assets, kidnapping and inland piracy are all crimes that occur in international jurisdiction. It is for lack of "Federal" aka "Continental Marshals" that the vermin are having a field day, so that is why I thought the push was on the form the Marshals Service.

You guys must be thicker than bricks when it comes to doing your own research. If you are looking for "Federal Postal District Courts" why don't you bother to put those words into your search box and visit a few browsers? These courts not only exist, I have served on them in the past. Thanks to Russell Gould we have never completely lost our Federal Postal District Courts.

And thanks to my husband and me the rats have not been able to successfully claim that our land jurisdiction states no longer exist. I have been working very hard in international jurisdiction for months to reclaim our assets from the IMF and the UNITED STATES bankruptcy. I have been working equally hard to secure funding for all 50 states and 3100 counties and everything we need to be fully operational again. I cannot do it all.

So here is what I suggest-- you guys who joined the Marshals program thinking it was the state militias--- just leave and turn your attention to building your county jural assemblies and your local militias and after that, work on building your state assemblies and state militias. You should all have plenty to do and thanks to me and the 50 States Claim you should shortly have what you need to do the work in paid positions with offices and support. What I further suggest is that you leave the Marshals program alone and stop blaming Marshal Haywood. I have investigated and she did absolutely nothing wrong.

The people who are now blaming her are the very same ones who failed in the mission I gave them-- organizing the counties and militias. That suggests to me that (1) they are unable or unwilling to follow simple instructions and do the grunt work or (2) it was their intent to mislead and undermine the effort from the start. Either way, Bella Haywood has done her actual job and done it well and the Continental Marshals program will continue under her guidance and under the authority of the Federal Postal District Courts. Those who want to work in international jurisdiction and think they have the experience to qualify are welcome to apply and those who have been successfully vetted into the program are welcome to stay or go as they please.

We will not gild any lilies or bow to what amounts to a witch hunt and ill-informed public opinion. Any idea that you have that I am ill-informed or "just making things up" needs to be tempered with the certain knowledge that I have been in these trenches since you were a child and if I was wrong about any of it, talking through my hat about ANY of it, I would have been arrested like so many others have been and would be cooling my jets in a federal jail like Thomas Deegan and so many others. The proof is in the pudding, and

available on the internet if you bother to read the Rogue Sabre Special Ops Report and bother to plug the words "Federal Postal District Court" into your browser.

Article 1998: Calling All Continental Marshals, Constitutional Sheriffs, and LEO's

There will be a special meeting lasting three days in Austin, Texas. Speakers will be David Straight from Oregon sharing what he has discovered about the Congress and its actions and other topics, Ron Gibson sharing his information about patents, and me bringing up the rear on Sunday with a Q and A about Enforcement of the Constitutions, Identities, Different Kinds of Law, Sea and Land Jurisdictions, Commissions, Pitfalls, and everything else you guys need to know. I have been trying to reach Bella Haywood, who inherited the organizational effort from Bruce Doucette --- without success. If any of you have contact with her, please let her know that she is invited and we have limited funds available to cover her travel costs.

Bella has been unfairly demonized on a number of occasions and I would like to clear the air and fully explain the whole circumstance with all parties face to face. Please pass the word. The details will be posted on my website, on the American States Assembly website, and in my Articles.

ARTICLE 12 OF 40

Article 1121: The Purpose of the National Assembly and Continental Marshals

Once again, confusion reigns supreme. I suppose that is what our enemies cherish most of all, when they can muck things up so badly with their word-play and their deceptions that we are all left chasing mirages and our tails. So, once again---- the purpose of the State Assemblies is to restore the Federal State of State organizations which are supposed to be running "our" Federal Government. The Federal Government operates exclusively in international jurisdiction under delegated power.

Say that sentence over and over until you all have it embedded in your brains as a permanent point of reference. The Federal Government operates exclusively in international jurisdiction under delegated power. The Federal Government is composed of Three Branches: Federal, Territorial, and Municipal. (Not what you were taught --- the branches of our Federal Government are not "executive, legislative, and judicial".) Say that one over and over, too. The Federal Level of our Federal Government was usurped by the Territorial Level of our Federal Government beginning in 1863.

Say that over a few times, too. So, what we are doing by summoning the States to assemble is to conduct long overdue business and restore the Federal Level of our Federal Government. This Federal Level of our Federal Government acts exclusively in international jurisdiction and under delegated power. It is supported by Federal State of State organizations.

The States own and operate the Federal State of State organizations. The Federal State of State organizations operate under names styled as "The State of Georgia", "The State of Maine", "The State of Vermont" and so on. The Territorial State of State organizations operate under names styled as "the State of Georgia", "the State of Maine" and so on. In our system of government, the Federal Level of the Federal Government is meant to control and direct the operations of the Territorial Level of the Federal Government, but it has not been doing that since the 1860's.

So, the purpose of assembling the States (notice I said "States" not "State of States") and the National Assembly is to restore the Federal Level State of State organizations which were improperly moth-balled during the so-called "Reconstruction" that was left incomplete after the (also so-called) Civil War. We mean to take care of business and settle hash that has been left hanging for 150 years. But only people acting as living people and not as businesses and not as incorporated entities can do this work, so it is necessary for those who participate in this process to reclaim their "reversionary trust interest" and correct the falsified political status records associated with their names in Territorial United States Registries as a first step. The second step is to assemble together at the County level, then the State level, and then, yes, the National Assembly level.

The entities now being assembled are the organic States of the Union, members of The United States of America (Unincorporated) federation of states. These States are the owners, operators, comptrollers, and creators of the Federal, Territorial, and Municipal United States and all the "state of state" franchises. So, part of the work to be done by the States being assembled now is the "reconstruction" of the original Federal States of States, the re-direction of the Territorial United States, and the limitation of the Municipal United States according to their respective charters. Other urgent tasks include officially enrolling the western states as States of the Union, updating the laws to include people of color and women as full participants in all electoral processes, helping to negotiate settlement of claims, helping to direct an end to the abusive practices of the Territorial and Municipal Levels of the Federal Government against the people these entities are supposed to serve "in Good Faith".

As the Federal Level of the Federal United States Government is "vacated" and has until recently been thought to be held "in abeyance" and as the Territorial Level of the Federal Government has been operated in Gross Breach of Trust and as the Municipal Level of the Federal Government has operated far outside the limitations of its charter, the delegated powers granted by The United States of America (Unincorporated)---the Federation of States--- have been "left open to the four winds" and have been abused by successive generations of thieves and interlopers. This has resulted in mammoth criminality infesting those delegated international jurisdictions and the gradual disappearance and de-funding of the land jurisdiction officers known as the "Federal

Marshals". These peacekeeping officers have been replaced surreptitiously with law enforcement officers operating as Territorial "US Marshals". Upon becoming aware of this gigantic fraud upon the American States and People, The United States of America (Unincorporated) commissioned a new force of international land jurisdiction peacekeeping officers: The Continental Marshals Service, effective May 25, 2015.

The Continental Marshals Service is an official, public, peacekeeping force commissioned by The United States of America [Unincorporated] and operating within the international jurisdiction owed to the States. These are the only "Continental Marshals" commissioned by the lawful government of this country and anyone else operating in any other jurisdiction of the law or claiming to be a "Continental Marshal" without a Commission, Oath, and Bond from The United States of America (Unincorporated) is infringing upon our Copyright in the same way that these Territorial Usurpers have done in the past. Accept no "look alike" impostors. That is how we got into this mess in the first place, and correcting our errors is the only likely way of getting out of it.

Study notes

ARTICLE 13 OF 40

Article 483: Reply to Michael R. Hamilton in Regard to Continental Marshals Service

Mr. Hamilton, my information on the subject of what the "founders" who started the Continental Marshals knew and didn't know comes directly from Bruce Doucette, who was in fact the one who started the whole ball rolling. It was NOT the intention of those acting that night on a teleconference to create a Continental Marshals Service. They had no idea that there was a separate, special, international jurisdiction involved that is the special province of international police officers called "marshals".

They just wanted protection in place for the people and they thought "marshals" sounded good. That is straight from the horse's mouth, and it was corroborated by three witnesses who were present during the initial and subsequent discussions. I have never said otherwise and have had no cause to say otherwise. The plain fact is that they were stumbling around without a clue and trying to form a security force akin to state militias for the land jurisdiction.

Their idea was that the State Justices should have peacekeeping forces acting in support to protect the people---and they were correct---they just did not realize that the state militias are the ones who are supposed to be providing that service. Anyway, you cannot cross jurisdictions and it makes absolutely no sense to confuse people by calling apples oranges. We need Continental Marshals and we have them. That is the Good News.

There is a completely stupid and unnecessary controversy about this. That is the Bad News. Those who want to serve in the state militias and give themselves fancy names and badges are free to do so. Those that can make the cut to serve in the Continental Marshals Service are more than welcome to submit their applications.

And that should, logically, be an end to it. The "people" you reference have not even been proven to be part of the "people"---- that is, their own state militias. You haven't produced a single piece of evidence that the individuals voting on all this via a teleconference were verifiably (1) American state nationals who have surrendered their PERSONS and reclaimed their birthright political status, (2) that any vetting process occurred preventing U.S. citizens and even entire groups of Bar Attorneys from "voice voting" on the matter, (3) that the intent of the group as a whole was what you have supposed it to be, since it is clear that their intent did not match their actions, or (4) any proof of your idea that a handful of "the people" --- even those who actually are part of the "people"----can arbitrarily give Grand Juries totally new authorities and jobs, convert State Justices into international court justices so that they hold both land jurisdiction offices and sea jurisdictions at the same time, alter the structure of the American Government at whim, and make yourself petty little gods over the rest of us. Accusing me of "lying" based on --- again --- your own completely unjustified assumptions is not going to hold water any more than your similar accusations against Bella Haywood.

Unfortunately, Sir, the only one causing trouble, passing around falsehoods based on flawed logic processes, and dishonoring the high standards of the other State Justices----is you. There have been zero sworn statements coming over my desk about Bella Haywood and none of the unsworn hearsay complaints have turned up anything substantive, either. But there sure have been a lot of complaints coming in about you, Justice Hamilton, including sworn court testimony. My advice to you is to pull in your horns and do what is right.

You can never get into trouble by doing that, but you are cruising for a bruising otherwise, because we all reap what we sow.

Study notes

ARTICLE 14 OF 40

Article 909: Land and Sea -- Peacekeepers and Law Enforcement, Continental Marshals and US Marshals.... ???

Almost every country on Earth has land jurisdiction and sea jurisdiction related to it. The exceptions are a very few landlocked countries, and even they have agreements to use the ports of other countries and conduct business "at sea". Land and Sea....two different jurisdictions. One that is unincorporated (land) and one that is incorporated (sea).

Peacekeeping Officers --- Sheriffs and Deputies of the unincorporated land and soil jurisdiction Counties operate in international and sovereign capacity, like their forefathers in the Old West. They enforce the Public Law within the borders of their Counties, including the guarantees of the Constitutions owed to the states and the people. They are the highest ranking Law Officers in the County by far. Like all land jurisdiction judges (properly called Justices of the Peace) they take a Public Oath of Office which does not include any reference to God.

This is because under Constitutional Government, the separation of Church and State is observed in America. These men and women work directly for the people of this country and exercise the American Common Law in their behalf. They are elected by people who have reclaimed their birthright political status. The elections are conducted via paper balloting and advertised for at least 30 days prior to Election Day.

Most actual Sheriffs serve a term of at least two years and many serve for four years. Land jurisdiction Sheriffs have the ability to deputize as many "deputies" as they need to accomplish the functions of their office. Law Enforcement Officers -- Territorial and Municipal "Sheriffs" and "Deputies" work for incorporated Counties/COUNTIES occupying the civil maritime and admiralty jurisdictions of the sea and are only supposed to deal with administration of Territorial and Municipal Government Corporations and their internal affairs and their citizens--that is, their own corporate officials, employees, and dependents. They enforce their private corporate "Public Policies" expressed as statutory laws, codes, and regulations.

They take a private oath of office which often appears to be a Public Oath; these oaths typically include a reference to God, usually as "so help me God". This is because the corporations they work for are typically religious non-profit organizations. They are elected in restricted private corporate elections that only "registered Voters" can participate in. These people belong to political parties and are commonly elected using automated voting machines.

Deputies are just additional hired staff and are not "deputized" as such. Because they do not hold actual Public Offices, they are not tasked with enforcing the Public Law or the Constitutional guarantees. There was in fact a controversy as to whether or not these individuals could enforce the Public Laws--- a question that was finally answered by Mack and Prinz v. USA, Inc.

The answer handed down by the [Territorial] United States Supreme Court was that yes, they could choose to honor and enforce the Public Law, including the Constitution, of their own volition, but were not obligated to. This leads to the common phenomenon we observe across the country where these "corporate Sheriffs" sometimes enforce the Public Law and often do not. When the welfare of the corporation they work for is opposed to the Public Law, they conveniently choose not to enforce the Public Law. The important thing for them and for you to know is that these men and women are functioning in a private capacity as hired security personnel akin to any other private corporate security guards.

They have no general public authority, and the illusion that they do is caused by the Great Fraud, which has falsified the public records of millions of Americans and identified them as "citizens" subject to serve these foreign Territorial and Municipal corporations. Once you correct the public record and return to your birthright political status, these SheriffsFor-Hire have a very limited scope of authority and should normally never address you or presume upon you at all. The situation is somewhat similar between the Continental Marshals Service and the US Marshals Service. The Continental Marshals occupy the international land jurisdiction owed this country and its people and

the US Marshals occupy the international civil maritime and admiralty (territorial and municipal) jurisdictions.

The Continental Marshals are here to protect the actual states and people. The US Marshals are here to protect the territorial and municipal corporations and the employees and dependents of those corporations. As part of our effort to restore the lawful government owed to this country, The United States of America (Unincorporated) has replaced the vacated Federal Marshals Service with the Continental Marshals Service. We have sought to make their jurisdiction and role less ambiguous for everyone concerned: continental = international land jurisdiction.

"US" = international sea jurisdiction. Nearly every day, I get calls and emails from people who are complaining about "bad sheriffs" --- sheriffs who are thugs, sheriffs who ignore the Constitution and its guarantees, sheriffs who have no regard for private property rights, sheriffs who are, frankly, not operating like sheriffs are supposed to operate. In every case, these are not actually the kind of "sheriff" that people are assuming they are. These are "Sea Sheriffs" -- basically private corporate security personnel working for the foreign Territorial and Municipal Government Corporations whose only business on our shores is supposed to be to provide our states with limited and strictly enumerated "essential government services".

Since they are calling themselves "Sheriffs" too, how can you tell the difference between a land sheriff and a sea sheriff? A peacekeeper versus a law enforcement officer? It is easy. Do they work for an incorporated entity or not?

Do they enforce the Public Law or the statutory law? If they work for a "County" that has an EIN and a CAGE number and all the other trappings of a commercial corporation franchise, you may be sure that he or she is a Territorial or Municipal "Sea Sheriff" -- not the kind of Sheriff you need and expect and thought you were paying for. To get the service that you need requires you to correct your own political status records and assemble your local unincorporated County and elect your own land jurisdiction County Sheriff. The actual Public Office has been vacant for many years thanks to the usurpation and deceit of these foreign "governmental services corporations".

Once he is elected, he is in charge and can kick all the butt you need kicked to get these foreign corporations back in line and the Public Law enforced. And he can deputize as many Americans as necessary to make sure that it is.

Study notes

ARTICLE 15 OF 40

Article 518: Do Your Ears Hang Low?

How many of you remember the children's song, "Do Your Ears Hang Low?" --- Remember this line--- "Do your ears hang low? Do they wobble to and fro? Can you throw them over your shoulder like a Continental Soldier?....." This song dates from Revolutionary War times. Although it sounds silly and children still delight in it, the "ears" the rowdy Colonists were talking about were not attached to their heads, and the song was regularly sung by those same Continental Soldiers on the march--- similar to the Marines singing "Sound Off!" as they march.

As the song makes very clear, there were soldiers called "Continental Soldiers" -- and it is also clear that they were the American soldiers fighting in the Revolutionary War. What other "Continental Soldiers" have you ever heard of? They were called "Continental Soldiers" and sometimes just " Continentals" because they were landsmen not sailors, and they were protecting their land from British invasion. Continental Soldier equals "Land Soldier" and Continental United States equals "Land United States".

It was the militias of the land that defeated the British sea-borne attackers. Please note these same soldiers were called "Colonial Soldiers" or just "Colonials". This in turn references the fact that the Revolutionary War was supported by the 13 Colonies. What do you know--- or should you know--- about the 13 Colonies?

First, they were all very different, not just in location, but in derivation. Some of the colonies were established by England--- New England and Virginia, for example--- and were funded in the early days by British investment companies: New England Company, Virginia Company, etc. Others were founded by other European Monarchies and their

investment companies--- New York, New Jersey, Pennsylvania, and Maryland, for example, were not founded or financed by England. Catholic Delaware and Maryland stood cheek and jowl with Protestant Virginia Colony.

This should give everyone a clue that when the American Colonies stood up together and acted as one accord as Americans, it was not as the popular historians would have you believe a matter of a united America standing against the British. It was a matter of colonies of various European nations breaking away from the domination of Europe, and in the case of Maryland and Delaware-- breaking away from the control of the Pope. Nothing like it had ever been seen in the history of the world. No colony had ever broken free of the grip of the sponsoring nation.

And here you had thirteen of them, all going for broke, and repudiating the claims of the assorted European Monarchies and the Pope, together, at once. As such, the American Revolution was a revolution of thought, a new idea, and that idea was that men have the right of freewill and self-determination given them by their Creator, and no man--- no Monarch, no Pope -- has the right to dictate another's conscience, lay claim to his body or his land or his assets, or otherwise inflict taxes and "injuries" or require payments for services rendered without his consent. It was not just the King of England being given a send up. It was the King of France, the King of the Netherlands, the King of Denmark, the King of Spain-----all the European Monarchs and the Pope----being given their walking papers.

So now you have some key information that has been missing, perhaps, from your education on these subjects. I had Michael R. Hamilton send me an email and accuse me of just making up the name "Continental United States" and "Continental Marshals". Well, if I made it up, then I would own the copyright to it, correct?

And there would be no need for the flap over who "owns" or does not own the Continental Marshals service. But, regrettably, I did not think of it. The Founders did. The need for the Continental Marshals arose soon after the adoption of the actual Constitution, and it arose as a result of splitting the international jurisdiction owed to the united Colonies acting as the united "States of America" into delegated and undelegated powers.

In 1790, George Washington organized the first United States Districts and the first US Marshals service as a part of the fall-out of the federal Judiciary Act. They were assigned to protect the newly mandated federal maritime and admiralty courts. They served in the delegated international jurisdiction created by The Constitution. In the same year, Benjamin Franklin organized the Continental Marshals to operate within the already established Postal Districts, to protect the Post Offices and Post Roads.

Over time, the Continental (Land) Marshals became known as Federal Marshals. They served the states and the people to maintain and enforce the Public Law governing the

undelegated portion of international jurisdiction that was retained by the states and the people. (Amendment X of the Bill of Rights). Easily within my lifetime and most of yours, you have heard of both "Federal Marshals" and "US Marshals" but probably never knew the difference. Confusion reigns because from the foundations of this country there have always been two (or more) entities calling themselves the "United States".

To shed more light on this circumstance, I am here reprinting all of one of the immortal Howard Freeman's articles. Please note that since Howard wrote this some time back in the 1990's or 2000's, the Uniform Commercial Code has been renumbered and the actual Code Section that allows you to retain your constitutional guarantees is no longer UCC 1-207, but is now instead UCC 1-308. Also note the confusion that arises at the end of the article when even Howard Freeman used "Federal" as a catch-all term instead of distinguishing between "US" (delegated) and "Federal" (non-delegated) powers. It was to avoid this confusion that I suggested resurrecting the original name "Continental Marshals" and using that instead of "Federal Marshals" so that people would more readily grasp the fact that the Continental Marshals work for the land jurisdiction states and the people and be able to set them apart from "United States Marshals" who work for the incorporated UNITED STATES, INC.

Thanks to both ignorance and guile in some quarters, the re-use of the name "Continental Marshals" was used to spawn a new and different confusion--at least in the minds of some less informed people--- who have attempted to call state militiamen "continental marshals". It boils down to this, folks--- the states of the union have the iron-clad guarantee that they can keep their "well-regulated militias" and they need to make use of that guarantee by retaining that name for their state-based armed forces. There is a fundamental guarantee lost by calling militiamen "marshals". When we knowingly operate in the international jurisdiction of the sea, we have historical precedent going back to Ben Franklin for using officers called "Continental Marshals" and later "Federal Marshals" to enforce the undelegated international jurisdiction owed to the states and people.

If we want to retain our freedom and restore our lawful government instead of going off the tracks and engaging in an insurrectionist folly, it only makes sense to cut the confusion to the bone and call offices and officers by their historically correct names. As you read this article, "The Two United States and the Law" also bear in mind that since Freeman wrote this---and although what he says remains fundamentally true---another sleight of hand has taken place and the original "United States" he correctly refers to as the "continental United States" has dropped completely off the board (unless we resurrect it) and the "Two United States" currently being employed by the rats in Congress are the Territorial United States (what Freeman calls the "Federal United States") and the Municipal United States, so that we are denied access to any of the constitutional guarantees as long as we submit to being counted either "United States

Citizens" or "citizens of the United States": The Two United States and the Law by Howard Freeman Our forefathers, weary of the oppressive measures that King George III's government forced upon them, in common declared their independence from England in 1776. They were not expected to be successful in that resistance. The moneyed people had backed England for two major reasons.

First, our forefathers wanted a rigid, written Constitution "set in concrete." They were familiar with the so- called Constitution of England which consisted largely of customs, precedents, traditions, and understandings, often vague and always flexible. They wanted the principle of English common law, that an act done by any official person or law-making body beyond his or its legal competence was simply void. Second, the thirteen little colonies desired to base their union on substance (gold and silver) — real money. They well knew how the despotic governments of Europe were mortgaged to the hilt — lock, stock, and barrel, the land, the people, everything — to certain wealthy men who controlled the banks, the currency, and all credit, who lent credit but did not loan gold and silver!

The United States of America was made up of a union of what is now fifty sovereign States, a three-branch (legislative, executive, and judicial) Republic known as The United States of America, or as termed in this article, the Continental United States. Its citizenry live in one of the fifty States, and its laws are based on the Constitution, which is based on Common Law. Less than one hundred years after we became a nation, a loophole was discovered in the Constitution by cunning lawyers in league with the international bankers. They realized that a separate nation existed, by the same name, that Congress had created in Article I, Section 8, Clause 17.

This "United States" is a Legislative Democracy within the Constitutional Republic and is known as the Federal United States. It has exclusive, unlimited rule over its citizenry, the residents of the District of Columbia, the territories and enclaves (Guam, Midway Islands, Wake Island, Puerto Rico, etc.), and anyone who is a citizen by way of the 14th Amendment (naturalized citizens). Both United States have the same Congress that rules in both nations. One "United States," the Republic of fifty States, has the "stars and stripes" as its flag, but without any fringe on it.

The Federal United States' flag is the stars and stripes with a yellow fringe, seen in all the courts. The abbreviations of the States of the Continental United States are, with or without the zip codes, Ala., Alas., Ariz., Ark., Cal., etc. The abbreviations of the States under the jurisdiction of the Federal United States, the Legislative Democracy, are AL, AK, AZ, AR, CA, etc. (without any periods). Under the Constitution, based on Common Law, the Republic of the Continental United States provides for legal cases (1) at Law, (2) in Equity, and (3) in Admiralty: (1) Law is the collective organization of the individual right to lawful defense.

It is the will of the majority, the organization of the natural right of lawful defense. It is the substitution of a common force for individual forces, to do only what the individual forces have a natural and lawful right to do: to protect persons, liberties, and properties; to maintain the right of each, and to cause justice to reign over us all. Since an individual cannot lawfully use force against the person, liberty, or property of another individual, then the common force — for the same reason — cannot lawfully be used to destroy the person, liberty, or property of individuals or groups. Law allows you to do anything you want to, as long as you don't infringe upon the life, liberty or property of anyone else.

Law does not compel performance. Today's so-called laws (ordinances, statutes, acts, regulations, orders, precepts, etc.) are often erroneously perceived as law, but just because something is called a "law" does not necessarily make it a law. [There is a difference between "legal" and "lawful." Anything the government does is legal, but it may not be lawful.] (2) Equity is the jurisdiction of compelled performance (for any contract you are a party to) and is based on what is fair in a particular situation. The term "equity" denotes the spirit and habit of fairness, justness, and right dealing which would regulate the intercourse of men with men. You have no rights other than what is specified in your contract.

Equity has no criminal aspects to it. (3) Admiralty is compelled performance plus a criminal penalty, a civil contract with a criminal penalty. By 1938 the gradual merger procedurally between law and equity actions (i.e., the same court has jurisdiction over legal, equitable, and admiralty matters) was recognized. The nation was bankrupt and was owned by its creditors (the international bankers) who now owned everything — the Congress, the Executive, the courts, all the States and their legislatures and executives, all the land, and all the people. Everything was mortgaged in the national debt.

We had gone from being sovereigns over government to subjects under government, through the use of negotiable instruments to discharge our debts with limited liability, instead of paying our debts at common law with gold or silver coin. The remainder of this article explains how this happened, where we are today, and what remedy we have to protect ourselves from this system. Our Present Commercial System of "Law" and the REMEDY Provided for Our Protection The present commercial system of "law" has replaced the old and familiar Common Law upon which our nation was founded. The following is the legal thread which brought us from sovereigns over government to subjects under government, through the use of negotiable instruments (Federal Reserve Notes) to discharge our debts with limited liability instead of paying our debts at common law with gold or silver coin.

The change in our system of law from public law to private commercial law was recognized by the Supreme Court of the United States in the *Erie Railroad v. Thompson* case of 1938, after which case, in the same year, the procedures of Law were officially

blended with the procedures of Equity. Prior to 1938, all U.S. Supreme Court decisions were based upon public law — or that system of law that was controlled by Constitutional limitation.

Since 1938, all U.S. Supreme Court decisions are based upon what is termed public policy. Public policy concerns commercial transactions made under the Negotiable Instrument's Law, which is a branch of the international Law Merchant. This has been codified into what is now known as the Uniform Commercial Code, which system of law was made uniform throughout the fifty States through the cunning of the Congress of the United States (which "United States" has its origin in Article I, Section 8, Clause 17 of the Constitution, as distinguished from the "United States," which is the Union of the fifty States).

In offering grants of negotiable paper (Federal Reserve Notes) which the Congress gave to the fifty States of the Union for education, highways, health, and other purposes, Congress bound all the States of the Union into a commercial agreement with the Federal United States (as distinguished from the Continental United States). The fifty States accepted the "benefits" offered by the Federal United States as the consideration of a commercial agreement between the Federal United States and each of the corporate States. The corporate States were then obligated to obey the Congress of the Federal United States and to assume their portion of the equitable debts of the Federal United States to the international banking houses, for the credit loaned. The credit which each State received, in the form of federal grants, was predicated upon equitable paper.

This system of negotiable paper binds all corporate entities of government together in a vast system of commercial agreements and is what has altered our court system from one under the Common Law to a Legislative Article I Court, or Tribunal, system of commercial law. Those persons brought before this court are held to the letter of every statute of government on the federal, state, county, or municipal levels unless they have exercised the REMEDY provided for them within that system of Commercial Law whereby, when forced to use a so-called "benefit" offered, or available, to them, from government, they may reserve their former right, under the Common Law guarantee of same, not to be bound by any contract, or commercial agreement, that they did not enter knowingly, voluntarily, and intentionally. This is exactly how the corporate entities of state, county, and municipal governments got entangled with the Legislative Democracy, created by Article I, Section 8, Clause 17 of the Constitution, and called here The Federal United States, to distinguish it from the Continental United States, whose origin was in the Union of the Sovereign States. The same national Congress rules the Continental United States pursuant to Constitutional limits upon its authority, while it enjoys exclusive rule, with no Constitutional limitations, as it legislates for the Federal United States.

With the above information, we may ask: “How did we, the free Preamble citizenry of the Sovereign States, lose our guaranteed unalienable rights and be forced into acceptance of the equitable debt obligations of the Federal United States, and also become subject to that entity of government, and divorced from our Sovereign States in the Republic, which we call here the Continental United States?” We do not reside, work, or have income from any territory subject to the direct jurisdiction of the Federal United States. These are questions that have troubled sincere, patriotic Americans for many years. Our lack of knowledge concerning the cunning of the legal profession is the cause of that divorce, but a knowledge of the truth concerning the legal thread, which caught us in its net, will restore our former status as a free Preamble citizen of the Republic. The answer follows: Our national Congress works for two nations foreign to each other, and by legal cunning both are called The United States.

One is the Union of Sovereign States, under the Constitution, termed in this article the Continental United States. The other is a Legislative Democracy which has its origin in Article I, Section 8, Clause 17 of the Constitution, here termed the Federal United States. Very few people, when they see some “law” passed by Congress, ask themselves, “Which nation was Congress working for when it passed this or that so-called law?” Or, few ask, “Does this particular law apply to the Continental citizenry of the Republic, or does this particular law apply only to residents of the District of Columbia and other named enclaves, or territories, of the Democracy called the Federal United States?” Since these questions are seldom asked by the uninformed citizenry of the Republic, it was an open invitation for “cunning” political leadership to seek more power and authority over the entire citizenry of the Republic through the medium of “legalese.” Congress deliberately failed in its duty to provide a medium of exchange for the citizenry of the Republic, in harmony with its Constitutional mandate. Instead, it created an abundance of commercial credit money for the Legislative Democracy, where it was not bound by Constitutional limitations.

Then, after having created an emergency situation, and a tremendous depression in the Republic, Congress used its emergency authority to remove the remaining substance (gold and silver) from the medium of exchange belonging to the Republic and made the negotiable instrument paper of the Legislative Democracy (Federal United States) a legal tender for Continental United States citizenry to use in the discharge of debts. At the same time, Congress granted the entire citizenry of the two nations the “benefit” of limited liability in the discharge of all debts by telling the citizenry that the gold and silver coins of the Republic were out of date and cumbersome. The citizens were told that gold and silver (substance) was no longer needed to pay their debts, that they were now “privileged” to discharge debt with this more “convenient” currency, issued by the Federal United States. Consequently, everyone was forced to “go modern,” and to turn in their gold as a patriotic gesture.

The entire news media complex went along with the scam and declared it to be a forward step for our democracy, no longer referring to America as a Republic. From that time on, it was a falling light for the Republic of 1776, and a rising light for Franklin Roosevelt's New Deal Democracy, which overcame the depression, which was caused by a created shortage of real money. There was created an abundance of debt paper money, so-called, in the form of interest-bearing negotiable instrument paper called Federal Reserve Notes, and other forms of paperwork credit instruments. Since all contracts since Roosevelt's time have the colorable consideration of Federal Reserve Notes, instead of a genuine consideration of silver and gold coin, all contracts are colorable contracts, and not genuine contracts. [According to Black's Law Dictionary (1990), colorable means "That which is in appearance only, and not in reality, what it purports to be, hence counterfeit, feigned, having the appearance of truth."] Consequently, a new colorable jurisdiction, called a statutory jurisdiction, had to be created to enforce the contracts.

Soon the term colorable contract was changed to the term commercial agreement to fit circumstances of the new statutory jurisdiction, which is legislative, rather than judicial, in nature. This jurisdiction enforces commercial agreements upon implied consent, rather than full knowledge, as it is with the enforcement of contracts under the Common Law. All of our courts today sit as legislative Tribunals, and the so-called "statutes" of legislative bodies being enforced in these Legislative Tribunals are not "statutes" passed by the legislative branch of our three-branch Republic, but as "commercial obligations" to the Federal United States for anyone in the Federal United States or in the Continental United States who has used the equitable currency of the Federal United States and who has accepted the "benefit," or "privilege," of discharging his debts with the limited liability "benefit" offered to him by the Federal United States ... EXCEPT those who availed themselves of the remedy within this commercial system of law, which remedy is today found in Book 1 of the Uniform Commercial Code at Section 207.

When used in conjunction with one's signature, a stamp stating "Without Prejudice U.C.C. 1- 207" is sufficient to indicate to the magistrate of any of our present Legislative Tribunals (called "courts") that the signer of the document has reserved his Common Law right. He is not to be bound to the statute, or commercial obligation, of any commercial agreement that he did not enter knowingly, voluntarily, and intentionally, as would be the case in any Common Law contract. Furthermore, pursuant to U.C.C.

1-103, the statute, being enforced as a commercial obligation of a commercial agreement, must now be construed in harmony with the old Common Law of America, where the tribunal/court must rule that the statute does not apply to the individual who is wise enough and informed enough to exercise the remedy provided in this new system of law. He retains his former status in the Republic and fully enjoys his unalienable rights, guaranteed to him by the Constitution of the Republic, while those about him "curse the darkness" of Commercial Law government, lacking the truth needed to free themselves

from a slave status under the Federal United States, even while inhabiting territory foreign to its territorial venue. ARTICLE 16 OF 40

Article 59: Declaration Of Law - by Judge Anna von Reitz, Alaska

The instigators kidnapped and press-ganged the people and the land assets of the Continental United States by force, fraud, and deceit into the foreign international Jurisdiction of the Sea. Our own employees did this while taking a paycheck from our hand. They cannot claim that they were “at war” with us. They were merely criminals committing fraud against their benefactors and employers.

The members of “Congress” stand notified that they do not represent the Continental United States nor the People of the Continental United States. They have not occupied their lawful public office and have acted instead to occupy private “similarly named” corporate offices at both the “federal” and the “state” levels. They have no public capacity whatsoever and no valid contract obligating any American State Citizen to obey any law, code, treaty, regulation or other legislation promoted as an “Act” of “Congress” in while failing to occupy public office and failing to act as responsible fiduciary officers. The members of “Congress” stand further notified that they and the corporations they represent have no Lawful contract with any individual American State Citizen born on the land of the Continental United States and that all claims, liens, titles and presumptions against the living people and their assets on the land stand null and void ab initio for fraud, all the way back to April of 1862.

The members of “Congress” stand further notified that as presently constituted and operating, they have no public authority related to the Continental United States and exercise only the power any corporate entity has, so long as it acts lawfully and within its

charter—which is to say, the authority to organize their actual employees, set standards for behavior within their own corporation, and perform the functions stipulated by their charters and law-abiding commercial contracts. The Governors of the Federal “State” franchises are similarly notified and placed under Public Lien, required to release all color of law titles and liens registered under conditions of fraud against Continental United States assets. The Joint Chiefs of Staff stand notified that they are obligated under the Geneva Convention Protocols of 1949 as well as The Constitution for the united States of America to come to the aid and assistance of the civilian populace of the Continental United States and to protect the civilian population and its assets at all costs and to prosecute those who have willingly violated Volume II, Article 3, of the Geneva Convention Protocols seeking to change the birthright citizenship and nationality of American State Citizens of the Continental United States by fraud, force, and coercion. The Joint Chiefs are also under obligation to return all civilian property unharmed and unencumbered to the rightful civilian owners, to remove all color of law titles and false liens against the labor and other private property assets of American State Citizens rightfully belonging to the land jurisdiction of the Continental United States.

The Joint Chiefs are fully and hereby notified that no commercial corporation on earth has the lawful ability to declare war and that the actions engaged in by the “Congress” and the “President” are merely the actions of a private corporation engaged in police actions and mercenary activities that must be closely scrutinized for conformance to international military law and with due respect for the actual Constitution for the united States of America and the citizenry of the Continental United States. President Barack Obama is hereby given Notice that he is merely an executive officer of a private, mostly foreign-owned for-profit governmental services corporation, not a Head of State, not eligible to represent the people of the Continental United States, and not empowered to obligate them to any military action or commercial contract. Any attempt on the part of Barack Obama or members of “Congress” to attack American State Citizens using commercial mercenary forces (NHS, BATF, NSA, FEMA, CIA, DIA, IRS, etc.) is to be immediately countered with arrest of those responsible. The Secretary of the Treasury and the INTERNAL REVENUE SERVICE are under Public Lien and demand to unblock all civilian public trust accounts and make available the entire balance of the National Credit (an amount equal to the National Debt, plus principle and interest) for the use and investment of individual Americans without constraint, excuse, or further obfuscation.

This Public Declaration establishes irrevocable lien upon the assets of the United States Treasury and the International Monetary Fund and all subsidiaries and successors of the former Federal Reserve System and upon all Federal State franchises. The Secretary General and General Secretary of the United Nations are both Notified and Given Fair Warning and Notice that the FEDERAL RESERVE and THE UNITED STATES OF AMERICA, two corporations recently organized under the auspices of the United Nations City State by the UNITED NATIONS, INC. are already in Breach of their Charters and

acting as criminal syndicates on the shores of the Continental United States, willfully seeking to defraud the living inhabitants of these peaceful States, and to exercise unlawful control over the citizenry and their assets. The North American Water and Power Alliance is under Public Lien and is herein identified as the recipient of purloined credit owed to the Continental United States and the Citizenry thereof, due and owing, and is under demand to unblock all individual Capital Credit accounts for the use of the American State Citizens who have been systematically defrauded and indebted resulting in the establishment of these credit accounts in their "NAMES" but retained in the control of local utility companies and the NAWP. All fraudulent convertible debt resulting from the semantic deceits and misuse of deceptively similar names applied to people and legal fiction entities is recognized as embezzlement of credit, willful identity theft, inland piracy, currency manipulation, obstruction of bankruptcy, and as unlawful restraint of trade accomplished by personage and enforced by barratry by the perpetrators of these schemes whether foreign or domestic.

The Continental United States retains the right to prosecute claims against any and all legal fiction entities and living people responsible, the right to void all contracts in default, all titles held under color of law, all actions undertaken under conditions of semantic deceit or constructive fraud, all self- interested claims of "foreign immunity", all restraint of trade or Natural rights owed the citizenry of the Continental United States, and all encroachment on its jurisdiction. So declared and ordered by the _____ State Superior Court this ____ day of April 2015. _____ Seal _____ Judge _____, non- negotiable Signature, all rights reserved. (printed name) (All blanks filled in and thumbprint seal in red ink to denote land jurisdiction action.)

ARTICLE 17 OF 40

Article 509: Public Notice of Gross Judicial Misconduct

This Notice is issued to the Public in regard to the activities of Bruce Doucette and Michael R. Hamilton taking place as an unverifiable conference call March 22, 2017 claiming to have authority to alter Public Law, commandeer Public Offices, have ownership rights to the name "Continental Marshals" which has been an office of the lawful government of the united States of America for over 200 years, claims to have authority granted to them to change the nature, duties, authorities, jurisdiction, and chain of command of the Continental Marshals a fiat by an unrecognizable multi- state group merely calling itself a "national assembly" when the only true national assembly is vested in the Continental Congress---let all be made aware that this is an act of gross judicial misconduct amounting to criminal negligence. Insomuch as these men have agreed to honor the office of State Justices and have not honored the Public Law and have not proceeded according to Due Process and have not made a Good Faith effort to ascertain the facts and take the oaths of the offices that they have occupied and have not corrected their political status and have not deserved the respect and the trust that they have been given, let all free men and women who value their freedom be advised that no authority over the Continental Marshals belongs to any single state assembly, to any Grand Jury, to any State Justice or any State Militia leader. Continental Marshals operate as Federal-level officers employed by the states and the people to defend and protect their un-delegated rights and material interests in the international jurisdiction still owed to us.

As such they are officers and members of the Federal Postal District Courts and are not subject to review by any Grand Jury unless they are accused of a crime. Chief Marshal Bella Haywood has not been accused nor found guilty of any crime, but she has been the victim of a great deal of ill-founded gossip and false assumptions made by others. Any action taken by those appearing on any conference call will have exactly the weight and authority of any phone call made by gullible people gossiping among themselves and attempting to usurp powers beyond their lawful offices.

ARTICLE 18 OF 40

Article 73: Public Notice to Law Enforcement, Sheriffs, Elected Officials and Bar Association Members April 5, 2015

Take Notice: The Roman Curia created the concept of legal fictions-- trusts, foundations, and other corporations for good reasons-- however, legal fictions can be misused. By Maxim of Law, those who create are responsible for their creations. It follows that the Roman Curia is responsible for the proper functioning of all corporations worldwide. As of September 1, 2013, Pope Francis declared all corporations and corporate officers fully liable for their errors and omissions.

This means you. Also by Maxim of Law, there is no statute of limitation on fraud. Privately owned governmental services corporations have been fraudulently passing themselves off as the "government of the United States" since 1862. The longevity of this fraud in no way imbues it with authority.

As an employee of these corporations, you have no public office and no public bond and no foreign state immunity. Federal Law Enforcement Personnel--- except U.S. Marshals: Your status is that of a Mall Cop acting outside the Mall. You have no authority on the land jurisdiction of the Continental United States.

You are acting under color of law when addressing Citizens of the Continental United States "as if" they were Citizens of the Federal United States. If you threaten any living

inhabitant of the Continental United States with a gun, taser, or other weapon, you can be hung as an inland pirate. If you remove any livestock you can be hung as a cattle rustler. If you cause any harm, you can be sued without limit.

If you wear any uniform or display any badge or use any name or office designed to deceive or project authority you do not have, you can be arrested for impersonating an officer. You are acting in a purely private capacity and have only equal Civil Rights that may be withdrawn at any time. You are also acting under Martial Law and may face extreme punishment for infractions against the civilian populace. Acts of plunder, mortal violence, and mischaracterization of civilians as combatants are all death penalty offenses.

U.S. Marshals are allowed full egress within the Continental United States so long as they are sworn and acting as officers sworn to uphold the actual Constitution, are not acting deceptively, nor acting outside their international jurisdiction while in pursuit of their duty protecting the U.S. Mail. Lawyers, Judges, Court Clerks--- When you address birthright Citizens of the Continental United States in the foreign jurisdiction of the Federal United States or that of a Federal State, and deliberately confuse living people with corporate franchises merely named after them, you commit personage.

This results in press-ganging land assets into the international jurisdiction of the sea, a crime outlawed worldwide for 200 years. It is a recognized act of inland piracy and it carries the death penalty. Mischaracterizing the identity or citizenship status of a birthright Citizen of the Continental United States is also a crime under the Geneva Protocols of 1949, Volume II, Article 3. It also carries the Death Penalty.

Finally, no member of the Bar Association may sit upon the bench of any public court nor occupy any public office of the Continental United States including Congress. The involvement of any Bar Member automatically voids all proceedings pretending subject matter jurisdiction related to the actual land or its assets---including the people of the Continental United States. The Titles of Nobility Amendment adopted and ratified prior to the American Civil War has not been repealed. The Federal United States and the Municipality of Washington, DC all operate under the auspices of the United Nations and are signatories of the Universal Right of Self-Declaration.

Anyone claiming to be a Citizen of the Continental United States having a valid Birth Certificate must be treated as such. Any debts or charges whatsoever related to vessels in commerce operated under his or her name by the Federal United States, any Federal State, the Washington DC Municipality or the UNITED NATIONS must be discharged according to Maxim of Law already cited: you are responsible for what you create. The Federal United States and its Federal States have created numerous vessels in commerce merely named after living Citizens of the Continental United States and styled in the form: John Quincy Adams. The Washington DC Municipality has similarly indulged in this

practice and created franchises for itself named after living Citizens of the Continental United States styled in the form: JOHN QUINCY ADAMS.

Most recently the UNITED NATIONS has created public utilities and is operating them under names styled as: JOHN Q. ADAMS. The organizations that have created these franchises are completely, 100% liable for their debts and obligations without exception and without recourse to claim upon the living people these franchises are named after. You may not presume that the living people have consensually agreed to be subjected to statutory law.

You may not presume that they consensually agreed to be obligated for the debts of any legal fiction personas which have been created and named after them by Third Parties secretly operating in a private capacity and merely claiming to represent the victims of this fraud. This is your Due Notice that the living people inhabiting the Continental United States are presenting themselves and may not be addressed as if they belong to, are responsible for, or indebted on behalf of any legal fiction personas operated under their given names by any international corporation. Any continuance of any such claims and repugnant practices will be deemed immediate cause to liquidate the American Bar Association as a criminal syndicate and to deport its members from our shores. International action is underway to secure the assets and credit owed to the victims.

Please read, research, and do your own due diligence. You are fully responsible for obeying the Public Law of the Continental United States including Revised Statute 2165 and The Constitution. Please respect the established jurisdictions of air, land, and sea--- and be aware that you may be arrested and fined or worse for failure to do so. Issued this fifth day of April 2015, Judge Anna Maria Riezinger, Alaska State Superior Court.

.....

Here are the Orders by Pope Francis that ALL “public officials” that are under the jurisdiction of the Vatican City State do no longer have Immunity for the crimes they commit, Primarily Judges in America which includes the BAR Association. APOSTOLIC LETTER ISSUED MOTU PROPRIO http://w2.vatican.va/content/francesco/en/motu_proprio/documents/papa-francesco-motuproprio_20130711_or_gani-giudiziari.html

Study notes

ARTICLE 19 OF 40

Article 2662: About State Nationals and International Officers

The demands our States make upon us when we act as State Citizens preclude being able to act in any "foreign" capacity at the same time. So, when we take up our Public Duty in a foreign jurisdiction, we bump into the same limitations as Federal Employees hired by the incorporated federal subcontractors. We are working in an unincorporated capacity versus them working in an incorporated capacity, but we are still operating in a foreign international jurisdiction when we act as Post Masters or Continental Marshals. So, for the duration of international service, we are limited so far as our home State is concerned, to acting as State Nationals; we are eligible to return to our State Citizen status once our international service is completed.

So, what does being a "State National" mean for the men and women who are undertaking Public Duties in international jurisdiction? Here is how I recently explained this for an Assembly Coordinator: "I guess the way to put it is that State Nationals--- and that includes Continental Marshals --- are public members of the Assemblies, and State Citizens are the private business managers of the "State's Interest" who take the official responsibility for State affairs. State Nationals are guaranteed all the Constitutional Guarantees just like State Citizens. They have the right to attend public meetings and voice their needs and opinions.

They have the right to attend and participate in all public functions of the Assemblies --- educational events, BBQ's, public speaker events, and public elections, for example. But they do not have the rights and obligations of State Citizens to conduct the business

affairs of the State, fill the State Offices, run the State Courts, staff the State Assembly Militias, etc., etc., etc., With rights come responsibilities and with responsibilities come rights. In the case of the Continental Marshals, they give up one set of responsibilities (that of State Citizenship) in order to take up other equally important responsibilities --- that of peacekeeping enforcement for the international land jurisdiction. Perhaps I should pause a moment to reflect that the absence of the Continental Marshals prior to this has been keenly felt --- because they are the ones responsible for preventing human trafficking, drug running, interstate insurrection, interstate bank and securities fraud, counterfeiting, mail fraud, unlawful conversion of assets, kidnapping across state lines, inland piracy, and a host of other heinous crimes that our States have suffered from in recent years because the Federal Marshals program was deliberately defunded by the rats.

They defunded our peacekeepers the better to pillage and plunder our people. The responsibilities that these men and women take on are considerably greater than the Average Joe State Citizen and they deserve our support and great respect as they struggle to resurrect and restore the Federal Marshals program and take up the mantle and serve in international jurisdiction." Those of you who remember the Federal Marshals will remember them with great fondness and respect and will be comforted that despite the Bad Faith and Misconduct of members of Congress acting to defund their service and leave their jurisdiction wide open to criminal infiltration, the actual government of this country has acted to reinstate, rename, and recommission the Marshals. We have been asked why the change of name from "Federal Marshal" to "Continental Marshal" and if this name change also changed the nature of the duties or jurisdiction? Certainly, in a sense, this is a newly commissioned Service apart from the old Federal Marshals program.

It occupies the same jurisdiction and undertakes prevention of the same crimes but, does so under the direct authority of The United States of America, instead of being an adjunct program funded through Federal Subcontractors. We changed the name in token of this administrative change, and also in an effort to increase public awareness of the differences between land jurisdiction and sea jurisdiction. It was felt that many, perhaps most, people-- had forgotten that "Federal Marshals" always occupied a different slot and acted under different law than "US Marshals". By naming our new Service members "Continental Marshals" we hope to draw public attention to the difference between land and sea forces and make an unequivocal distinction between the two.

The misuse and abuse of the word "Federal" by applying it to such private organizations as the "Federal Reserve" and the ease of confusing the popular use of the word "Federal" to denote all Federal Employees with the more specific (and correct) use of the old "Federal Marshal" moniker made the change to "Continental Marshal" desirable. A Continental Marshal thus occupies the exact same jurisdiction and addresses the same

crimes as the now-defunct and defunded Federal Marshals program, but does so under the direct and unincorporated and non-delegated authority of our Federation of States, The United States of America. As such, our Continental Marshals must be further recognized as public peacekeeping officers, not any form of private law enforcement officer operating under any presumed delegated authority. In practical terms, this means that our Continental Marshals have returned to their proper standing and authority, and when standing on the land jurisdiction of this country, they outrank all other federal officers and agency personnel engaged in statutory law or code enforcement, including State of State police, FBI, BATF, IRS, and so on.

The Continental Marshals Service itself has been commissioned since May 22, 2015; there are currently two Chief Marshals, Deloy Meechum serving the Western States, and Bella Haywood serving the Eastern States. All Continental Marshals work within designated Postal Service Areas (called Postal Districts by the District Government system) that typically include three or more geographically defined States. You will find them hard at work in every corner of America, learning the ropes of the jurisdiction they are heir to, and addressing the large roster of international and interstate crimes that were left without enforcement in breach of trust.

ARTICLE 20 OF 40

Article 141: The Northwest Ordinance, Federal Proprietorship, and the Western States

The Northwest Ordinance of the United States is part of our Organic Law and provides a progressive means for Territories to become States, however, there has been no Continental Congress since 1860 competent to actually enroll the States created by Statehood Compacts. The "Congress" operating in DC since then has been operating in other capacities in the international jurisdiction of the sea as a corporation and as the "representatives" of a foreign constitutional democracy of 57 "states" including the seven Insular States of Guam, Puerto Rico, etc. plus 50 inchoate Federal States. There has not been a "Land Congress" since 1860. We have not sent anyone to Philadelphia (not DC) in a Fiduciary Deputy capacity to act on behalf of the Land Jurisdiction in 150 years.

Let that fact sink in. Remember--- The Constitution we are owed has no 19th Amendment. Our Senators report to our actual State Legislature on the Land and can be recalled. Our Congressmen are accountable directly to the people.

But we have not operated our actual State Legislatures on the Land and we have not called a Continental Congress in many, many decades. This is technically all right because we are the recognized sovereigns of the land jurisdiction and if we do not want to do our job, there is nobody to force us to do it. On the other hand, the work has piled up and the mayhem has increased. At some point we have to remember who we are and do our part, call our Congress to Philadelphia, and clear the backlog.

Put a Big Red Flag on this statement: THE CONTINENTAL CONGRESS IS COMPLETELY DIFFERENT FROM THE UNITED STATES CONGRESS. The Continental Congress meets in Philadelphia which is and has always been the Capitol of the Land Jurisdiction. The United States Congress meets in Washington, DC, which is and has always been the Capitol of the Sea Jurisdiction. We are talking not only apples and oranges "different" but apples and potatoes different.

Failure on the part of Americans to realize this has caused no end of trouble and misadministration and frustration. As a result of this ongoing circumstance, most of the States west of the Mississippi have remained in limbo as States-in-Waiting--- technically considered Federal Territories and largely under Federal management though contractually guaranteed all the rights and statuses of actual States-on-the-land to the extent that the Federal United States can guarantee that result. This, too, is part of the craziness and the direct result of Federal Self-Interest and Power Mongering combined with our failure to realize what has gone on and take appropriate action. This is why we have to organize the separate land jurisdiction government owed to the people at the county and state levels and organize an actual and proper Continental Congress to formally enroll the western states and to formally relinquish their land and resources to them and out of any federal control.

So, the problem is not the Northwest Ordinance which has functioned well as far as it could function. The problem is on our end as a Body Politic for failing to do our duty and convene a Continental Congress to accept the "new" States into the Union of States and end their quasi-territorial status. Of course, this is just another example of how the Federal United States owed us a duty to bring forward the issue and request action --and did not--- because they have enjoyed the power of management over large areas of land and resources that otherwise belong to the States and the People. Still, it is only a trustee capacity that the Federales have enjoyed there--- as caretakers and proprietors until such time as the actual States on the Land convene a Continental Congress and take care of long overdue business.

Although I am fully in support of our taking these actions, I also have to say that we are not ready to convene a Continental Congress and the dangers of doing so in a condition of confusion are or should be self-evident. Millions of people are just waking up and they have been well and fully deceived---most of them for their entire lives. It takes time and effort to retrain one's assumptions and alter one's mindset from one of dog-like obedience and trust in "our government" to waking up and realizing that we are literally "self-governing" and need to do the job. If our Housemaid stole our credit cards and we mistook her for Santa Claus the situation could not be more bizarre than it is, or any more disconcerting for the newly awakened.

Up is down, black is white. Instead of being the Debtors, we are the Creditors. Instead of the Subjects, we are the Sovereigns. Instead of electing members of the United States Congress we need to be electing members of the Continental Congress.

But before we do, we need to fully remember who and what we are and how this government "of the people, by the people, and for the people" is supposed to work.

ARTICLE 21 OF 40

Article 66: Public Order Timeline

Article 66: Public Order Timeline The Timeline of the Great Fraud and Declaration Of Law 1. 1754-1776: The “United Colonies” take shape as a loose political association, and the First and Second Continental Congresses result. 2. 1776: The Colonies declare independence.

3. 1781: The Articles of Confederation bind “States” --- political subdivisions of the United Colonies – together in a “perpetual union”, creating a confederation of States to operate in the international Jurisdiction of the Sea. [Why a “confederation” instead of a “federation”? --Because the original States gave up some of their natural jurisdiction to the new political entity, the Union, they created.] 4. 1783: The Treaty of Paris and Treaty of Versailles cements this arrangement splitting the land and sea jurisdictions between the States and the Federal Union and places King George III as Trustee of American interests on the “High Seas and Navigable Inland Waterways” ---which means he kept control of American international commerce. The new “Union” entity operating in the international Jurisdiction of the sea was always controlled by the British and it has always been the British Monarch’s responsibility as International Trustee to manage it and guarantee its proper operation.

It has instead run amok for 150 years. 5. 1787: The Supreme Perfected Republican Declaration of the United Colonies creates the National Trust owed the Continental United States. 6.

1789: Two years later, “The Constitution for the united States of America” splits off the sea jurisdiction and creates the new Federal United States. A year later (1790) the

Federal United States forms a commercial company doing business as the United States (Commercial Company) to provide the nineteen enumerated services agreed to by the subscribing States. 7. 1812-1814: The British try to horn in again and are beaten back.

This skirmish results in the Treaty of Ghent, where the British interests in American shipping and commerce are reaffirmed and lasting peace is promised in return. 8. 1845: The British Monarch and Pope secretly agree to undermine the American System of government via the Treaty of Verona. The British Monarch breaches the Treaty of Ghent and both the Pope and the King secretly breach their trust as International Trustees.

They set out on a covert action and issued Letters of Marque and Reprisal to the members of the Bar Associations, allowing them to act as Foreign Agents on American soil and as privateers free to plunder American commerce. 9. 1860: Thanks to the efforts of the Bar Associations a member of the Bar, Abraham Lincoln, is elected to serve as President. Note that he is ineligible serve as President of the united States of America, by the Titles of Nobility Amendment to the actual Constitution--- but is eligible to serve as President of the United States (Commercial Company).

This is the same situation we have with Barack Obama who is ineligible to serve as President of the United States of America, but is able to serve as President of the United States (Incorporated). 10. 1861: The Civil War begins. Congress adjourns for lack of quorum and without a date to reconvene.

Lincoln organizes a Delaware Corporation and the remaining members of Congress begin functioning as a Board of Directors. 11. 1862: The "Corporate Congress"---a body of men no different than the Board of Directors of IBM, change the meaning of a single word ---only and explicitly for use within their corporation. That word is "person".

From then on the word "person" is deemed to mean "corporation" for federal government purposes. (37th "Congress"-- Second Session, Chapter 49, Section 68.) 12. 1863: Lincoln signs the Lieber Code as Commander in Chief and puts the Union Army, the Grand Army of the Republic, in charge of the nation's future and money supply. A day later, he bankrupts the original United States (Commercial Company). 13.

1865: Lee's Army surrenders to Grant and a general armistice is declared. The Southern States are in ruins and under military occupation by the Union. The original Northern States are bankrupt. Foreign banks are in control of the new "United States of America, Inc." and the Union Army reigns supreme.

Over the next two years President Andrew Johnson will three times publically declare peace on the land jurisdiction of the Continental United States, but peace is never declared in the international Jurisdiction of the Sea controlled by the Federal United States under the trusteeship of the British Monarch. 14. 1868: The Corporate Congress

writes itself a new Corporate Constitution, called “the Constitution of the United States of America” and palms off this look-alike, sound-alike private corporate document “as if” it was the actual Constitution. This is fraud on many levels.

The Constitution of the United States of America purposefully sought to confuse and delude people into thinking it was the actual Equity Contract obligating the States to receive services and subrogate their international jurisdiction to the federal government. 15. 1871: The Corporate Congress begins to set up shop for itself by creating a separate government for the District of Columbia. The initial effort fails but seven years later the Washington DC Municipality is created as an independent international city state run as a plenary oligarchy by the members of “Congress”.

Also in 1871, the Corporate Congress claimed to own all United States corporations--- 41st “Congress”-- Third Session, Chapters 62, 63, 64, and 65. 2 16. 1874-1885: All the actual States on the land are reorganized and at the same time completely new “Federal States” are created and new “State Constitutions” are written for them. The original States on the land are renamed in this process.

The original State of Ohio operating the land jurisdiction became the Ohio State, while the usurping “Federal State”--- merely a corporate franchise of the United States of America, Inc. operating in the international Jurisdiction of the Sea---took over the name “State of Ohio”. 17. 1900-1904: Still lusting after more power for itself, the Corporate Congress set up a second shop for itself and obtained permission to do it from the Supreme Court in a series of cases known as The Insular Tariff Cases. As with setting up the Washington DC Municipality as a foreign city-state on our shores and running it as their own little oligarchy, the “Congress” now took the “federal territories and possessions” and made a new “union” of “American states”----Puerto Rico, Guam, et alia---and began calling it “the United States of America (Minor)”.

They just forgot to add the (Minor) part of the name from then on, and let people assume that all the repugnant laws they passed governing this “Constitutional Democracy” also applied to the Continental United States. 18. 1912-1913: A private association of European and American banks calling themselves “The Federal Reserve” bought the governmental services corporation known as “The United States of America, Inc.” and its “State” franchises as a business venture and began operating such familiar agencies as The United States Department of Agriculture and The United States Department of Transportation as private, for-profit businesses---without telling anyone. They exercised the “government powers” they didn’t really possess in a vast fraud scheme in collusion with members of “Congress” to institute a fiat monetary system and misused their position of trust to put competitors out of business, set up monopolies, rig commodity markets, and commit other acts of blatant self-interested criminality and fraud.

19. 1917: Engaging in a war for profit, Congress and their Banker Bosses passed the War Powers Act and the Trading With the Enemy Act, and numerous other illegal and repugnant “Acts” pertaining only to the Federal United States and the international Jurisdiction of the Sea, but presented them to the public as if this claptrap pertained to the actual States and People on the land of the Continental United States. Deceived by this venal and purposeful fraud, millions of Americans complied with what they believed to be the “Law” passed by a legitimate Congress acting as deputies of the States and the People. 20.

1918-1933: Once in control of the monetary system the “Federal Reserve” increased the monetary supply exponentially, causing the “Roaring Twenties”. They built the house of cards and on October 29, 1933, they collapsed it---deliberately. This enabled them to put thousands of competitors out of business, allowed them to buy commodities, land, and labor for dirt cheap, and to manipulate the value of the dollar to their benefit. 21.

1933-1940, The banks took full advantage of the “national emergency” they created, and the Congress did everything the bankers required: The Sheppard-Towner Act, the Buck Act, the Alien Registration Act, the Social Security Act(s), the Emergency Banking Act, and more. The purpose of all this was to lay claim to the labor and the assets of the States and People of the Continental United States by securing “private contracts” with them, enabling the perpetrators to “represent them” and to set up corporations “in their names”. Hundreds of millions of Americans were told that they “had to” sign up for Social Security and have a Social Security Number in order to have a job, that it was “the Law” and that “Congress had passed it” and so, believing it to be a lawful government mandate—when in fact it was a corporate fraud scheme--- they were subscribed en masse. Remembering now the actions of the Corporate Congress in 1862 redefining the word “person” to mean “corporation” for federal purposes, and their later claim made in 1871 to hold ownership interest in all United States corporations and seeing that their actions from 1933 to 1940 resulted in redefining the estates of living Americans as public trusts---that is, as a form of corporation--- you can see that the “Corporate Congress” has claimed to own living Americans as assets belonging to their corporation and has also claimed to control and own their private assets --- in flagrant violation of the Geneva Convention Protocols Volume II, Article 3, and in equally flagrant violation of the 1926 International Conventions on Slavery, and in violation of every lawful and moral duty, commercial contract, and trust indenture owed to the Continental United States and the American People.

It is also apparent that all of this - every claim, every salvage lien, every title to land and property held under color of law—being held against the Continental United States and the living civilian inhabitants of the Continental United States, is pure, self-interested commercial fraud created and perpetuated under conditions of semantic deceit, constructive fraud, misrepresentation, and mischaracterization by the management of

the Federal United States, the various governmental services corporations doing business as some form of "United States" and the British Government. 20. 1940-present: Among the first actions to be taken by the criminals was to "register" all live births. This established a claim of ownership on the baby and his or her estate, benefiting the "State of Ohio" or other "Federal State franchise".

This act of identity theft exercised via an undisclosed and forced contract with the Mother of the child, allowed each "State" franchise to control the name and the property of the baby. The perpetrators promptly set up new "State franchises" benefiting themselves using names styled like this: "Joseph Quincy Public" and new "Municipal franchises" set up under the auspices of the Washington DC Municipality using NAMES styled like this: "JOHN QUINCY PUBLIC". The only purpose for creating these franchises structured as various kinds of trusts---was to act as a means for the privately owned governmental services corporations to hypothecate debt against the labor of the living people and their private property assets and to exercise control over them amounting to slavery. Declaration Of Law The instigators kidnapped and press-ganged the people and the land assets of the Continental United States by force, fraud, and deceit into the foreign international Jurisdiction of the Sea.

Our own employees did this while taking a paycheck from our hand. They cannot claim that they were "at war" with us. They were merely criminals committing fraud against their benefactors and employers. 4 The members of "Congress" stand notified that they do not represent the Continental United States nor the People of the Continental United States.

They have not occupied their lawful public office and have acted instead to occupy private "similarly named" corporate offices at both the "federal" and the "state" levels. They have no public capacity whatsoever and no valid contract obligating any American State Citizen to obey any law, code, treaty, regulation or other legislation promoted as an "Act" of "Congress" in while failing to occupy public office and failing to act as responsible fiduciary officers. The members of "Congress" stand further notified that they and the corporations they represent have no Lawful contract with any individual American State Citizen born on the land of the Continental United States and that all claims, liens, titles and presumptions against the living people and their assets on the land stand null and void ab initio for fraud, all the way back to April of 1862. The members of "Congress" stand further notified that as presently constituted and operating, they have no public authority related to the Continental United States and exercise only the power any corporate entity has, so long as it acts lawfully and within its charter---which is to say, the authority to organize their actual employees, set standards for behavior within their own corporation, and perform the functions stipulated by their charters and law-abiding commercial contracts.

The Governors of the Federal "State" franchises are similarly notified and placed under Public Lien, required to release all color of law titles and liens registered under conditions of fraud against Continental United States assets. The Joint Chiefs of Staff stand notified that they are obligated under the Geneva Convention Protocols of 1949 as well as The Constitution for the united States of America to come to the aid and assistance of the civilian populace of the Continental United States and to protect the civilian population and its assets at all costs and to prosecute those who have willingly violated Volume II, Article 3, of the Geneva Convention Protocols seeking to change the birthright citizenship and nationality of American State Citizens of the Continental United States by fraud, force, and coercion. The Joint Chiefs are also under obligation to return all civilian property unharmed and unencumbered to the rightful civilian owners, to remove all color of law titles and false liens against the labor and other private property assets of American State Citizens rightfully belonging to the land jurisdiction of the Continental United States. The Joint Chiefs are fully and hereby notified that no commercial corporation on earth has the lawful ability to declare war and that the actions engaged in by the "Congress" and the "President" are merely the actions of a private corporation engaged in police actions and mercenary activities that must be closely scrutinized for conformance to international military law and with due respect for the actual Constitution for the united States of America and the citizenry of the Continental United States.

President Barack Obama is hereby given Notice that he is merely an executive officer of a private, mostly foreign-owned for-profit governmental services corporation, not a Head of State, not eligible to represent the people of the Continental United States, and not empowered to obligate them to any military action or commercial contract. Any attempt on the part of Barack Obama or members of 56 "Congress" to attack American State Citizens using commercial mercenary forces (NHS, BATF, NSA, FEMA, CIA, DIA, IRS, etc.) is to be immediately countered with arrest of those responsible. The Secretary of the Treasury and the INTERNAL REVENUE SERVICE are under Public Lien and demand to unblock all civilian public trust accounts and make available the entire balance of the National Credit (an amount equal to the National Debt, plus principle and interest) for the use and investment of individual Americans without constraint, excuse, or further obfuscation. This Public Declaration establishes irrevocable lien upon the assets of the United States Treasury and the International Monetary Fund and all subsidiaries and successors of the former Federal Reserve System and upon all Federal State franchises.

The Secretary General and General Secretary of the United Nations are both Notified and Given Fair Warning and Notice that the FEDERAL RESERVE and THE UNITED STATES OF AMERICA, two corporations recently organized under the auspices of the United Nations City State by the UNITED NATIONS, INC. are already in Breach of their Charters and acting as criminal syndicates on the shores of the Continental United States, willfully seeking to defraud the living inhabitants of these peaceful States, and to

exercise unlawful control over the citizenry and their assets. The North American Water and Power Alliance is under Public Lien and is herein identified as the recipient of purloined credit owed to the Continental United States and the Citizenry thereof, due and owing, and is under demand to unblock all individual Capital Credit accounts for the use of the American State Citizens who have been systematically defrauded and indebted resulting in the establishment of these credit accounts in their "NAMES" but retained in the control of local utility companies and the NAWP. All fraudulent convertible debt resulting from the semantic deceits and misuse of deceptively similar names applied to people and legal fiction entities is recognized as embezzlement of credit, willful identity theft, inland piracy, currency manipulation, obstruction of bankruptcy, and as unlawful restraint of trade accomplished by personage and enforced by barratry by the perpetrators of these schemes whether foreign or domestic. The Continental United States retains the right to prosecute claims against any and all legal fiction entities and living people responsible, the right to void all contracts in default, all titles held under color of law, all actions undertaken under conditions of semantic deceit or constructive fraud, all selfinterested claims of "foreign immunity", all restraint of trade or Natural rights owed the citizenry of the Continental United States, and all encroachment on its jurisdiction.

So declared and ordered by the _____ State Superior Court this ____ day of April 2015. _____ Seal _____ Judge _____, nonnegotiable Signature, all rights reserved. (printed name) (All blanks filled in and thumbprint seal in red ink to denote land jurisdiction action.)

Study notes

ARTICLE 22 OF 40

Article 490: Your Political Status and Your Oaths -- Bella Haywood's Case

1. Your political status is your own decision. Nobody including the courts can dictate anything about it. In fact, I have it on very good and agreeable authority of the United States Supreme Court that judges in their system can't even speak to the issue of your political status. It's your call and nobody else's.

2. Being that your political status is your own business and nobody else's and that it is your choice, then you are held responsible for your choice. 3. Millions of Americans have been arbitrarily identified as "United States Citizens" and/or "citizens of the United States" and assigned "births" as "commercial vessels" in the British Crown's Merchant Marine Service.

This results in the establishment of an ACCOUNT dba your FIRST MIDDLE LAST name and more recently your FIRST M.I. LAST name and the presumption that you, the living man or woman, are the Account Holder responsible for administering these ACCOUNTS as good and faithful Warrant Officers of Her Majesty. 4. These PERSONS are debtors and criminals by definition.

See the 14th Amendment of the Federal Constitution published as The Constitution of the United States of America, 1868. 5. If it is not your intention to embrace this political status, you need to inform the Secretary of the Treasury, make him your Fiduciary, sign over the PERSON's BIRTH CERTIFICATE to the credit of the United States of America, U.S. Treasury, without recourse, by endorsing the back of the BC.

You also issue an indemnity bond which is basically your agreement to operate under 100% commercial liability. 6. You need to take these actions as proof that you are loyal to the United States of America and also to settle the affairs of your separate estate--but this is a private matter between you, the Secretary of the Treasury, and God. 7.

The employees of the Queen and the British Crown have no right to presume anything about your political status and may not even speak to you, if you deny them the consent to do so. Simply observing this fact may be sufficient to warn them off--but it is obviously better to not be bluffing and to have the paperwork proving your political status on file and your indemnity bond ready to present. 8. This is especially true for those asserting their natural born political status and occupying offices in the lawful government of the United States of America.

Those claiming to be State Justices and Continental Marshals need to have their paperwork in order. They also need to have proof of their lawful oath. 9. The office of the State Justices is a land jurisdiction office and it operates only in the state being served.

A State Justice for Alaska has no such authority in California. 10. Each state has established the proper Oath for its justices and judges in its Public Session Laws. If you are a State Justice for Nevada, you have to take the Nevada Oath as required by the Nevada Session Laws.

11. If you are occupying a land jurisdiction office, the oath of office is administered with your hand on the Bible, in token that you are agreeing to operate under the Law of Moses, which is known as "The Law of the Land" and obey the Ten Commandments. 12. For this same reason, all land jurisdiction Justices (that is, Justices of the Peace) carry a Bible with them into the courtroom.

This is also the reason that Court Clerks require people to "All rise!" when the justice walks in--- not out of respect for him or her, but out of respect for the Bible. 13. To be properly seated as a State Justice, you have to have renounced all forms of United States citizenship, have surrendered the US PERSONS associated with your given name, have established your bond with the Treasury, and taken the proper Oath required by your state of the United States of America. 14.

Now, strictly speaking, it isn't your employee's business, but they have a reasonable excuse for wanting to be sure that you are not a United States Citizen trying to occupy an office of the United States of America and if they catch a United States Citizen pretending to occupy an office in the United States of America they have every right to throw the book at them and they will. 15. Continental Marshals are employees of the United States of America, not the United States. They work for the states and the people, but they work in the international jurisdiction under the un-delegated powers retained by the states and people.

This causes a lot of confusion. 16. The United States of America delegated nineteen (19) specific powers to the United States to administer in its behalf. All other powers in international jurisdiction are retained.

The job of the Continental Marshals is to exercise and enforce these retained powers in behalf of the states and people. 17. As a practical matter, this means that Continental Marshals are engaged in international law enforcement and operate within the Postal Districts of the United States of America. They are federal-level law enforcement officers, but they operate apart from the United States Marshals for obvious reasons.

18. Just in case it is not obvious to some--- United States Marshals work for the United States and exercise and enforce the delegated powers. Continental Marshals work for the states and the people to exercise and enforce the un-delegated powers. 19.

The jurisdiction of the Continental Marshals is therefore "whatever is NOT directly delegated" under the constitutional agreement to the United States and the United States Marshals. 20. As employees of the United States of America, Continental Marshals need to be functioning as State Citizens, howbeit, in international jurisdiction. As American State Citizens in international jurisdiction, they are protected under the actual Constitution, the national trust, and the Treaties of Westminster pertaining to Americans at sea.

21. Continental Marshals take their Oaths under the authority of the United States of America Post Master and work as part of the United States of America Postal District Courts. 22. Continental Marshals are acting under the authority of the United States of America and are not under the authority of any one state and they are certainly not under the direction of any State Justices.

23. Any other "interpretation" of these offices is incorrect and not borne out by the public records associated with them and will not be honored by the US Government, sometimes called the De Facto Government, nor by the United States of America, sometimes called the De Jure Government. 24. As regards Chief Marshal Haywood's current dilemma: Thanks to Blue Blood Elitists known as Southern Democrats, all the freed plantation slaves were seized upon as public property following the illegal mercenary action known as the American Civil War.

25. All people of color were surreptitiously claimed as property belonging the United States and a second-class brand of "US citizenship" was presumed against them --- "citizen of the United States" as found in the Federal Constitution's 14th Amendment. Most Americans have since suffered the same false presumptions and commercial claims. 26.

The Southern Democrats representing the United States of America allowed and promoted this evil in our midst by denying the natural born state national status of black Americans and for many years they had no rights or protections at all, existing as stateless "federal citizens". 27. It took a hundred years -- 1868 to 1968 -- for American Negroes and other people of color to secure "Equal Civil Rights". Equal to what?

The natural and unalienable rights of the people of the United States of America. 28. Chief Marshal Haywood of the Continental Marshals Service is a woman of color and she has been arrested by federal franchise employees of the "State of Georgia" under the presumption that she is not owed any natural born state national status and cannot therefore serve as an American State Citizen. 29.

However, in November, 2015, new Sovereign Letters Patent were issued for the United States of America and a new Declaration of Joint Sovereignty, too, too, which allows all people of color including American Indians and African Americans to reclaim their natural born political status. 30. This was done because The Emancipation Proclamation -- which is a public commercial contract of the United States -- was not honored by the United States of America as a result of fraud by Southern Democrats, resulting in unlawful conversion, press-ganging and enslavement of living people under the pretense of voluntary indentured servitude. The new Sovereign Letters Patent and the Declaration of Joint Sovereignty settles the issues resulting from failure to honor The Emancipation Proclamation.

31. As a result, Chief Marshal Tresa Haywood, is indeed an American state national of the Georgia State and is eligible to serve as a State Citizen and as a Continental Marshal. Those unlucky State of Georgia employees who have assumed otherwise and who think they can bring charges of impersonating a public officer are in for a number of big surprises. 32.

The first big surprise is that a woman of color can serve as head of the Continental Marshals Service. 33. The second big surprise is that she is operating under a universal indemnity bond. 34.

The third big surprise is that the President of the United States, Abraham Lincoln, issued The Emancipation Proclamation; there is absolutely no question that every United States Citizen and every employee of every federated State of Georgia franchise, every municipal STATE OF GEORGIA agency, and every federated County in Georgia is legally and commercially bound by it. 35. The fourth big surprise is that they have been making profoundly wrong assumptions and presumptions that will cost them in precisely the same way that they have brought charges against others, committed false arrest, and accused Ms. Haywood of IMPERSONATING a public officer.

36. All the IM-PERSONATING has been done by the State of Georgia, the STATE OF GEORGIA and the federated, incorporated Counties of Georgia--- all federal corporate franchises that have violated their own commercial contracts and committed personage against the American states and people. 37. Those members of the Bar Associations responsible for this are about to get a great big boot up their butts.

And it's long overdue.

ARTICLE 23 OF 40

Article 72: Alaska State Superior Court Judge, Anna von Reitz - Judge of the actual Alaska State, one of the Several States of the Continental United States

Posted on April 28, 2015 On Apr 28, 2015, at 7:02 PM, Anna von Reitz wrote: As to my being a judge....To give you the fair full depth of it, you have to learn a lot of history and learn it right now. so I am going to answer you and then I am going to post this letter and let everyone else read it to their heart's delight. Please bear in mind that if you feel stupid or overwhelmed at the end, that is normal, and we all go through that in the process of waking up. Just realize that you were intentionally defrauded and kept uninformed, so it is not your fault that you never knew any of this. You simply were not told.

So let's begin. From the founding of this country onward the jurisdiction over the land was split from the jurisdiction over the sea. The Continental United States — the actual geographically defined states with physical borders, etc.,- were given jurisdiction over the land, and their Citizens known as American State Citizens are the ones protected by The Constitution for the united States of America and vested with all powers of the civil government on the land. The Federal United States was created (and limited) by The Constitution for the united States of America and given jurisdiction over the international jurisdiction of the sea.

Circa 1868, the Federal United States started operating as a corporation doing business as the United States of America, Inc., and published its corporate charter as a look-alike, sound-alike “Constitution” we are all familiar with as the Constitution of the United States of America. This is a different kind of document (a corporate charter) as well as being a different document in and of itself. As part of this reorganization the Federal United States created “State franchises” for itself. These are “States of States” such as you find described in the Uniform Commercial Code’s Definitions section.

They exist only on paper and are corporate franchises in the same sense as your local Dairy Queen is a franchise of the national parent corporation. Thus, you have the Ohio State (land jurisdiction) and you have the State of Ohio (sea jurisdiction) operating side by side, one being the natural jurisdiction owed the living people on the land, the other being a corporate franchise in the business of delivering governmental services and administrating the affairs of the Federal United States, its employees, and service contracts— all operating in the international jurisdiction of the sea. The Continental United States is under the plenary (complete) control of the living People— the so-called “birthright” American State Citizens. We each have more civil authority on the land than the entire federal government.

The Federal United States is British-controlled and always has been. All those “courts” that you think are your courts are not your courts, if you are an American born on the land of the Continental United States. They are a mish-mash of corporate administrative tribunals and martial law courts operated by the Federal United States and the Washington DC Municipality, all operating in the foreign international jurisdiction of the sea. For example, THE SUPERIOR DISTRICT COURT FOR THE STATE OF ALASKA is run by the ALASKA COURT SYSTEM, INC., which is a federal corporation doing business as the “THE SUPERIOR DISTRICT COURT” — a privately owned and operated for-profit corporate franchise which is under contract to act “FOR” the STATE OF ALASKA which is another private, mostly foreign-owned corporate franchise of the UNITED STATES, INC., which is owned and operated by the IMF, which is an agency of the UNITED NATIONS, INC.

Got that? Now, does the local Burger King franchise have any right to haul you over to the side of the road and demand that you produce a license? No? Not unless you are a Burger King employee.

Does the local Sears franchise have authority to foreclose upon you and kick you out of your house? No? Not unless you have a valid fully disclosed contract with Sears allowing them to do that. It’s the same with the situation above.

The fraud is that these yahoos are merely local franchises of national-level governmental services corporations—not the actual government at all, yet they are pretending to operate as public institutions. How do you know that what I am telling you is true— that

these really are nothing but private, for-profit corporations? They are listed on Dunn and Bradstreet. They have Employer Identification Numbers.

The “laws” they use in these “courts” are all under private copyright. Just open up one of their “State Statute” books and look. Since when are public documents subject to copyright? They are not.

If these crooks represented the actual State, all the documents would be Public Domain. So, what kind of Judge am I? I am their worst nightmare. I am a Judge of the actual Alaska State, one of the Several States of the Continental United States.

I occupy the actual public office and operate the actual Alaska State Superior Court. Note the difference: Alaska State = actual State on the land, actual public office, using actual Public Law and operating under the American Common Law, which is the law of the land. State of Alaska, STATE OF ALASKA, ALASKA = all various corporate franchises, private offices, operating under either administrative (purely private in-house corporate “laws”) or international law in the jurisdiction of the sea.

Article 501: Badge Buffoonery -- Tempest in Teapot 2

In response to the Company Line being put out by Doucette, Hamilton, et alia. and as expressed by an apparently concerned commentator----- I would be inclined to put more weight to your reasoning if I did not know some simple facts and didn't have experience with Bruce Doucette bungling money and contract relationships before. The simple facts I know are these: (1) At this point in its development, there is one check book and one account funding all aspects of the Continental Marshals Service. There is not some sophisticated, separate account structure, where it is possible to set aside "special designated funds"; (2) Bruce Doucette had cause to know that when he made the donation and he has no reason to suppose anything different now; (3) Anyone who isn't serious and competent enough to pay \$35 for their own badge-- and that is assuming that they pass the vetting process-- shouldn't be considering service as a Continental Marshal; (4) Thanks to the fraud our lawful government has suffered, the Continental Marshals Service isn't yet funded or staffed except by donations and by volunteers. Bella Haywood has worked many hundreds if not thousands of hours without receiving diddly-squat for her expertise and service commitment which has nothing whatsoever to do with nursing; (5) Bruce Doucette handed Marshal Haywood the baton and made her responsible for everything concerning the Marshals Service on a national call in front of God and everyone else present; (6) Marshal Haywood set about the task with courage and commitment and has built the Continental Marshals Service ever since.

Bruce abdicated the responsibility and therefore also abdicated the authority; (7) This is not the first time that Bruce Doucette has made assumptions about money and

commitments and been wrong-headed about both. One of his "I-said-he-said-they-said-that-wasn't-my-understanding" boondoggles cost me \$10,000 out of my own pocket and I have the Witnesses to prove it. I was willing to think that he was just a bit odd and forgave it, but when he comes out starts doing the same crappola again and allows his second-guessing and false assumptions to threaten the functioning and existence of a valid Marshal's program--- that's another story. On the call where all this took place: (1) Where's the list of names and addresses provided at that time identifying the 25 Marshals whose badges Bruce offered to pay for? (2) Where's proof that the 25 people on that call passed the vetting process and are actually enabled to carry a badge? (3) Where's the agreement that badges would be provided by any certain date? (4) Where's the agreement that no part of that money could be spent for any other purpose related to producing and distributing the badges? (5) Where's the agreement that the \$1000 would be kept in a separate fund---or even could be kept in a separate fund? (6) Who is responsible for designing badges and getting them approved and finding a manufacturer and paying for all that, so that badges can even exist? (7) Who is going to securely deliver these badges once they are produced and all the rest of the work gets done?

None of the things enumerated 1-7 above exist. Therefore, this is another case of Bruce Doucette hand-waving and making assumptions without doing any due diligence to nail down the details even to the point of determining who was on that call, who among them was eligible to get a badge, who would pay for designing and producing badges, where that money was coming from, when the badges would be available or how they'd be produced or by whom, how they would be delivered, by whom, at whose cost of delivery, how the money would be sequestered if it was to be set aside in a special fund--- and yada, yada, yada. When you start swaggering around and telling volunteers what you "expect" you had better have some valid reason to expect what you are expecting otherwise you are just being a pain in the butt. Producing and authorizing those badges is a much, much, MUCH bigger deal than Bruce's donation could ever pay for and he knows it, because he struggled with it himself and could not get it done and was pleased as punch to dump all the design and prep work cost and program vetting on Bella Haywood.

ARTICLE 25 OF 40

Article 492: The Right Way and the Wrong Way

I cannot stress enough the necessity of honoring the government established by the united States of America----on which all guarantees and treaties among nations depend. Americans now newly discovering what I have been reporting for years now---about the "corporate takeover" of the 1860's need to stuff their outrage and confusion and listen for the rest of the story. The so-called "de jure" government never disappeared. It went through a succession, but it still exists.

There is still Public Law in effect. The offices of the de jure government of the United States of America have stood vacant, but they are still here, still have requirements that have to be met. Any idea that you can throw the baby out with the bathwater need to be stifled right here and right now. Each state is supposed to have a "well-regulated militia" and it needs to be called a "militia" and operated as one.

This business of trying to call state militias "continental marshals" is whacko and contrary to the law and treaties and history of this country. It is a mistake and it needs to be corrected no matter whose precious little ego is on the line. Militias you can have in each state and state jural assemblies can control them, are in fact obligated to do so. But Continental Marshals occupy a different international jurisdiction, operate in Postal Districts composed of several states, and are NOT the "same as" state militias no matter who says or thinks otherwise.

By stubbornly trying to maintain the mistake, you endanger yourselves and the entire effort to restore the lawful government owed to the states and the people. Give up this prideful and unnecessary error or you will clearly be operating outside the provisions of the actual Constitution and the still-standing Public Law. All that then does is provoke an opportunity for the Federales to attack you and promote claims that you are leading an insurrection instead of restoring your lawful government. Same way with trying to just wave your hands and say that you are Americans while you are still registered as United States vessels in commerce.

There are many thousands of Americans rotting in federal jails who tried the same thing.

ARTICLE 26 OF 40

Article 1937: Sheriffs and Marshals -- The Enforcement

The Offices of Sheriffs and Marshals are split into two kinds and two "venues" -- land and sea. Sheriffs and Marshals operating on the soil and land jurisdictions are peacekeeping officials. Sheriffs and Marshals operating in the maritime and High Seas jurisdictions are law enforcement officers. See the difference?

Peacekeepers v. Law Enforcement. Public v. Private.

Land v. Sea. Sheriffs of both kinds work at the county level. Marshals of both kinds work at the federal district level--- only one works in the Postal Districts (land) and one works in the US Districts (sea).

They are intended to work together for the common good of the people of this country and of the country itself, but thanks to greed, graft, and commercial corporation self-interest, these offices have been misunderstood, misdirected, and misinformed. Land jurisdiction marshals used to be called "Federal Marshals" as opposed to sea jurisdiction marshals who were called "US Marshals". Both are operating in international jurisdiction, both operate in "districts", but the peacekeeping officials are operating in a Public Capacity and the law enforcement officers are operating in a Private Capacity. The run amok members of the "US Congress" have sought to phase out the Federal Marshals by leaving them unfunded and forced to serve as volunteers.

This circumstance led The United States of America [Unincorporated] to re-name and re-commission these Public Peacekeeping Officials as The Continental Marshals Service in 2015, in an effort to draw the line between land jurisdiction and sea jurisdiction and to make it clear that these men and women are serving the land jurisdiction of this country and are here to enforce the Constitutions in behalf of the lawful government as peacekeeping officials operating in international jurisdiction. The public officials outrank the private (corporate) officers, but in the absence of public peacekeeping officials, the private officers enter the vacated office of "County Sheriff" and act "as" both kinds of Sheriff until the public office is re-occupied. As a result, many so-called "County Sheriffs" are not actually functioning as County Sheriffs. They are simply federal corporation franchise employees considered Dual Citizens by the federal organizations, who have the option to enforce the Law of the Land --- or not --- as they see fit.

This gives them almost God-like usurped power, until and unless the people in the actual, factual County wake up and (1) prevail upon these men to do their actual intended duty, or (2) reclaim their own birthright political status, hold their own elections, and elect their own County Sheriff to serve specifically in the actual Public Office as an elected peacekeeping official. This usurpation of our Public Offices, both the County Sheriffs and the Federal Marshals, by privately owned and operated commercial corporations and their employees is a violation of our Constitutions at all levels. It occurred without disclosure and under conditions of semantic deceit, resulting in the entire process being tainted by fraud, and also without any valid authorization. County Officials at the time that this corporate take-over occurred (circa 1965-66) were lured by federal individuals who knew what they were doing committed both treason and fraud.

Now is the time that we all have to deal with the consequences and exert ourselves to straighten the resulting Mess out. All across this country Sheriffs -- whether they are acting as peacekeeping officials or as law enforcement officers -- are waking up. They are beginning to enforce the Public Law and to defend Americans from unlawful asset seizures, unlawful arrest, and other crimes contrary to the Constitutions. They are beginning to quietly take up positions in the backs of courtrooms and their presence has proven sufficient to keep the judges honest.

The Enforcement of the actual Public Law of this country has quietly come back into view, and as it does, conditions will improve. Do everything you can do to educate your County Sheriff whether he is acting as a Law Enforcement Officer or as a Peacekeeping Official. And when you meet a Continental Marshal, realize that this man or woman has taken up a most difficult and challenging duty, and is voluntarily policing the land jurisdiction of this country directly under the auspices of The United States of America. If the County Sheriff fails to protect your persons and property, it is the duty of the Marshals Services, both the Continental Marshals and the U.S.

Marshals, to protect them and enforce the Constitutions.

ARTICLE 27 OF 40

Article 485: An End to My Association with Bruce Doucette and Michael R. Hamilton

I met Bruce Doucette when I invited him to a conference I held in Anchorage, Alaska, last May. Bruce is a very personable guy, apparently well-intentioned, and eager to get things done. Unfortunately, what he wanted to get done had nothing to do with why the conference had been called, and he attempted to commandeer it for his purposes. I had to repeatedly drag things back on track because he could not or would not keep his own agenda to the sidelines.

The same thing is happening right now. I have called for the restoration of the American Government of the people, by the people, for the people---- and he and Hamilton and a few others have launched off into to redefine the American Government however they see fit. It's not going to work. Bruce has taken it into his head that he and a few other people on a conference call can just wave their hands and change the meaning and substance of the American Government (change the duties and authorities of the Grand Juries, for example) and bypass and ignore the jurisdictional limitations that have been set in stone for over two hundred years (put State Justices in charge of Continental Marshals, for example).

That is simply not true. Restoration of a government does not imply redefining and twisting it into something else. Every single one of us reclaiming our natural birthright status can occupy vacant offices in our own government and serve them faithfully, but we

have no authority to change the meaning and nature of the offices we occupy. If what Bruce is thinking and teaching others to think were true and correct, there would quickly be as many different opinions about what Grand Juries are as there are Grand Juries.

Chaos and constant confusion and conflicts would reign supreme. There would be no agreement between Michigan and Georgia about what a "Grand Jury" is or how it functions, and in all the over 3000 counties, the situation would be the same. All valid American Government offices are strictly limited to prevent despotism. Whatever office Bruce Doucette thinks he occupies---a land jurisdiction State Justice's office does not have duties in international jurisdiction.

None. Zero. Whatever anyone "thinks" ---Grand Juries do not have control of anything but the duties that Grand Juries are assigned within the American Common Law Courts under the Public Law. Those who flout the same Public Law that they claim to derive their authority from, are acting in breach of their oaths and have no authority.

And now Bruce and Mr. Hamilton and some others who have confused the functions of state militia with the functions of continental marshals have stumbled into international jurisdiction where they have no vested authority and they are ramming around causing trouble for the Continental Marshals program over --so far as the evidence goes so far ---truly petty misunderstandings and false assumptions. I suspect ego problems are at the bottom of it all, and that having helped start the program and having handed over the baton for it, Bruce Doucette wants to continue to control and direct it even though his office is a land jurisdiction office and the offices of the continental marshals are all in international (sea) jurisdiction. As for Michael R.

Hamilton, I do not believe that he even has an office apart from the vacancy. So far as I know there are no active counties in Louisiana and no jural assemblies or Grand Juries, either. So? What is a justice without a constituency?

Both these men may be well-intentioned. I would vouch for Bruce that he is. But, being well-intentioned only goes so far. One must also respect the rules and observe the limitations built into the government and the offices you say you serve.

I wish to make it perfectly clear that I serve the American states and people and the government they established in 1776 and that I abide by the constitutional agreement they established and that I stand for the Public Law and for Due Process and that I exercise my office within the confines established for it by the Public Law and that I do not condone nor encourage any Grand Jury administrator or any State Justice operating outside their lawful jurisdiction. Such actions are destructive to the aim of restoring our lawful government. That is not to say that after the restoration is complete, I do not have some issues with loopholes in The Constitution that need to be closed or think that our American Government is perfect "as is". I don't.

But I also know that there are ways and means and processes established for the peaceful amendment and negotiation of whatever changes we wish to make as a nation and that the lawful way and place to address those changes is not on a teleconference call. I know that single counties do not make states and single states don't speak for the whole union of states and that we have rules and definitions, quorums and processes that have to be observed for actions to be valid. Bruce and Mr. Hamilton have impugned my honor and suggested/inferred that I am "just protecting Bella Haywood" and that I have some personal ax to grind for defending the limitations our offices, the Public Law, and the Rules of Evidence.

What kind of Justice would I be, if I did not? From what I have seen so far--- Chief Marshal Haywood deserves protection, because she is doing her job and observing her proper jurisdiction and nothing substantial has been proven against her. It's that simple. On the other hand, both Bruce and Michael R.

Hamilton have overstepped their boundaries, asserted authorities they do not have under the Public Law, and what is even more damning, have taught others to do the same. Instead of acting as, and within the offices of State Justices, they have strayed far, far afield either in ignorance or in arrogance. And they have refused to correct. I have spent forty years in the trenches and I have to say that such behavior always, predictably--- and rightfully--- has consequences.

When you stand on the Law and respect your jurisdiction and respect the limitations of your office, you prosper. When you do otherwise-- you get shot down. Water flows downhill. If Bruce Doucette and Michael R.

Hamilton continue to ignore the limits of their offices and the rightful jurisdiction their offices, they will sooner or later be arrested and prosecuted for it, because the only authority, right, or safety we have derives from the Public Law, and depends on us knowing and obeying the Public Law, respecting the limits of our offices, and operating in our proper jurisdiction. I am separating myself from them and their actions and assertions because in my opinion what they are doing ----and what they are encouraging others to do ---- is outside the Public Law, outside their jurisdiction, and destructive to the cause of restoring our lawful government. Whatever it is that they are doing, it is not within the lawful office of State Justices to do. From this time forward and until such time as a reconciliation may be reached let it be perfectly clear that I do not condone what Bruce Doucette and Michael R.

Hamilton are doing or teaching, the assumptions they are making, the new powers they are assuming for themselves, nor the new and different duties they are trying to foist off onto the Grand Juries and Continental Marshals. There is no precedent for such offices or jurisdictions as they are attempting to create, no Public Law in support of it, therefore no delegation of authority related to our already existing American Government (as opposed

to US Government) in support of them or what they are doing. And so, in my view, there is no difference between the corruption that Bruce and Hamilton are introducing and the corruption that the de facto government has allowed; they are now trying to usurp powers never delegated to their offices from within in exactly the same way that the de facto government has usurped power from without. I will have no part of it.

Always remember that rights and authorities go with limits and responsibilities. If we expect the United States Government to play by the rules, the Government of the United States of America can do no less.

Study notes

ARTICLE 28 OF 40

Article 503: Ten Important Facts for Americans

Fact One: The states each retained the right to keep their own "well-regulated militia" as part of the constitutional agreement. Fact Two: There is no provision for any state to operate multi-state armed forces of any kind under state authority. Fact Three: The United States of America operates the undelegated powers of the states and people in international jurisdiction---that is, the union of states operates those powers and offices, not any one state. Fact Four: The Continental Marshals operate in behalf of the United States of America (the whole union of states) to enforce their retained undelegated powers in international jurisdiction.

Fact Five: Public offices belong to the public, not to the office holder. Fact Six: Office holders are not free to define or redefine their offices. Fact Seven: The only people owed the public offices of the States of America, united or otherwise, are Americans born in one of the states of the union who claim their birthright political status as Texans, Minnesotans, Californians, and so on. Fact Eight: No United States Citizen or citizen of the United States can hold a state office.

None of the states allow dual citizenship. Fact Nine: Those who fill vacated state offices must take the specific oaths of office for their state and follow the organic and Public Law to the best of their ability. Fact Ten: Those who fill vacated state offices and who have not surrendered their federal "PERSONS" to the Secretary of the Treasury prior to assuming office are acting in Breach of Trust. This must be corrected or they must be impeached or recalled.

Be not like dumb, driven cattle. Those who work to restore the lawful government must act lawfully, with clarity, logic, due diligence, and honor.

Study notes

ARTICLE 29 OF 40

Article 508: Public Offices Belong to the Public

Bruce Doucette and Michael R. Hamilton are attempting to host what they call a "national assembly" call tonight, yet they are once again refusing to obey the Public Law established by the American states and people. Until they get their heads screwed on and their facts straight, nothing they say has any validity and imposes no obligation on anyone else. And neither do the actions of however many misguided and misinformed and unidentified people tuning into a telephone call.

These two men have not even bothered to correct their own political status and are still United States Citizens purporting to hold offices in the government of the states of the union. Hello? Big red flags going up anywhere yet? As it stands, both the de facto government and the de jure government have the right to arrest these maniacs and prosecute them for insubordination on one hand, and insurrection on the other.

These men assume that because they occupy a vacated Public Office that they own that office and are free to define or redefine its nature and its duties and its limits however they see fit. Oh, and everyone else's offices, too. This is an obvious error. Public offices belong to the public, are defined in Public Law, and are not subject to the whims of those occupying the offices.

Anyone who thinks about it for five seconds would have to agree. It follows that just because they started the impetus to fill the vacated offices of the Continental Marshals they do not own and cannot define those offices, their duties, or their jurisdiction. A

handful of unidentified people on a telephone call are not enabled to wave their hands and change international law. Anyone with a brain in their head should be able to sort that much out.

The sovereignty owed to the men and women of this country does not make them kings over others equally endowed.

ARTICLE 30 OF 40

Article 2900: About Concerns of Google Dependency of the LRS

Basically, for all those who have been concerned, we do not have anything to worry about short of a total shutdown of Google, which could happen, but is not likely. Our LRS team has been slogging away to wean the system off of Google dependency and further ensure the security and permanence of all the records that are entrusted to the LRS. The information running through the Google service programs and platforms is all fully encrypted, so is not at risk and not available to be skimmed off and abused by Google for any commercial purposes. The LRS initially used Google to get up and going, but the intention has always been to build out of the Google system or any other corporate third party dependency one piece at a time, and that process is ongoing.

The most obvious Google service, the Cloud Service, is not actually dominated by Google, but by a consortium of varied and competing corporate interests, and that keeps Google on the straight and narrow as far as abusing Cloud customer data goes. All things considered, the LRS is in good shape and moving forward. I think it is important for everyone to understand that our vendors are here to help the Assemblies perform necessary work that is rather specialized--- providing services and goods that the individual Assemblies would otherwise have to provide for themselves and their members, and which many Assemblies are not competent to do for themselves at this stage of development. Whether it is providing a competent public record of a land patent, or issuing individual State Credentials or creating badges for our Continental Marshals, our vendors are a vital part of making this whole effort a success.

If you have questions or concerns about the vendors, please do not hesitate to ask in a forthright manner. Sitting around and gossiping and promoting paranoia is not productive and only creates more problems and obstacles to be overcome.

ARTICLE 31 OF 40

Article 1325: Good News

Lord, love a patriot..... I do believe that the proverbial "Enforcement Nut" has finally been cracked wide open, and that we are now in position to fully credential our Continental Marshals and unleash the Bounty Hunter Clause of the Fourteenth Amendment of the British Territorial United States Constitution known--deceptively enough --- as "The Constitution of the United States of America" first published in 1868. This will have four more or less immediate and much-longed for affects: (1) An end to the crooked court system. We will be able to enter, catch the Vermin evading or dishonoring the Constitutional provisions, arrest them on the spot, and turn them over to the military authorities for trial and execution for treason and other capital crimes including inland piracy, kidnapping, and fraud. (2) An end to the crooked banks.

We will be able to enter, catch the Vermin refusing to let depositors have access to their deposits, creating improper mortgages, manipulating credit to benefit themselves at other's expense and boom! --- replace the erring bankers with honest men much sobered up by their predecessor's experience. (3) An end to the crooked commodity markets. We will be able to enter, catch the brokers fixing prices and supplies and running up situations like The Big Short, and arrest them by the boat loads, along with all the SEC functionaries that sold out and allowed all this crappola. (4) An end to the crooked double accrual accounting and budgetary system. We will be able to review the books in sum total and recapture the sequestered assets, aka, Slush Funds --that these Vermin have been creating and manipulating for their own unjust enrichment. And none of the phony local "law enforcement" fat asses who haven't done their duty by the Public and none of the "federal agencies" including the FBI and DHS and Homeland Security and all the rest

will have a word to say about it, because we are the superior jurisdiction and we mandate the action.

What was that I said the other day about --- where in the @\$\$!@\$ is John Wayne when you need him? I think we just found out.

Study notes

ARTICLE 32 OF 40

Article 486: Vetting. Think About It

Bruce Doucette has been running around all over creation, handing out Marshals Oaths and credentials in states where he has no office as a Justice or a Judge. He has been promising people badges who never went through the vetting process to become a Continental Marshal OR to serve in the state militia, either one. Is it safe or sane to do this? No.

It's not. You would think that we were kids playing a game and everyone gets a Marshal's star and a little plastic holster. What if that man who suddenly has a badge and who is claiming to be a Marshal--- is seriously unhinged? Has a criminal record longer than his arm?

An IQ of 50? Isn't an American state national? Is motivated by vengeance? Isn't who he says he is?

Is so ignorant he stinks? Marshals and Judges, both, need to know their jobs and their history and their law. And they also have to obey the law they purport to uphold. You cannot just stand on a street corner and hand out badges and think that's okay.

You cannot put people in positions of public trust without vetting and training them. So there's another reason why Bruce and I are parting ways and why I don't approve of Michael R. Hamilton's equally reckless recruiting ideas, either. If he had his way, we would all just pay him \$50 and he would make up credentials identifying us as the President of the United States.

Why would he care? He made \$25 a pop selling you meaningless credentials you did not earn. Do you want men you can trust in positions of authority over you, or do you think it's okay to put a stamp of approval on just anybody who wants to play "Marshal" or "Justice" for a day? And can any of you tell me how these practices by Doucette and Hamilton are going to do anything but endanger good people?

Both those who are willing to serve, but don't have the training for it, and the public, too? I have come too long and too far to stand here silent, knowing that what these two men are doing will serve to discredit the effort and endanger everyone involved. I have to object. Loudly.

Study notes

ARTICLE 33 OF 40

Article 2020: Good News—

I met with Senior Chief Marshall Haywood for several hours after arrival last night. She gave me a preliminary run down and progress report on the organizational development and status. They have come a long way in terms of establishing standards, training, departments, badges, paperwork, and all the rest of it. It is clear that she and the other Marshals involved have put in a tremendous amount of thought and work into building a modern and well-documented peacekeeping force we can all be proud of.

In the course of the discussions Senior Chief Haywood demonstrated an unusually good knowledge of how law works now versus the way Public Law is supposed to operate, the underlying reasons that our peacekeeping forces are being lied to and misdirected--- and what we can all do to change that and make our country and communities safer places to be. She made me aware of a couple new programs akin to Neighborhood Watch and relationship building that has been going on in which the Marshals are taking the lead to educate and support Law Enforcement Officers about Public Law and all the many topics that relate to Public Duty. Education of local law enforcement and Agency Personnel remains a high priority going forward and The Continental Marshals Service is well on its way organizationally to becoming an integral and vital --and prior to this, missing link in the total law enforcement community nationwide. Our Marshals are taking the high road and keeping their focus exactly where I and everyone else reading this, needs it to be: protecting private persons and property and enforcing the Constitutional guarantees we are all heir to.

I could not be more pleased with the dedication, understanding, focus, and just plain hard work of these unpaid volunteers. It is very humbling to consider the sacrifices each

and every one of these Americans are making. For those who don't know, the Marshals Service was re-commissioned in 2015 as a result of being de-funded by the corporate Municipal Congress. Bruce Doucette was given the task of organizing the Marshals.

He admitted that the task was too much on top of everything else and nominated Tresa Haywood about a year later. He never gave her copies of the foundation documents and there were other issues with the transfer of command that have now either been ironed out or soon will be now that I have been made aware of them. I also want to assure people who have heard ugly rumors to the effect that Senior Chief Marshall Haywood had anything to do with the arrest and conviction of the Colorado Nine that this gossip is totally unfounded. Bruce and the others got in trouble because they were confused and would not listen to me nor to Chief Haywood.

They crossed over the jurisdictional lines, which predictably has the same result as turning the wrong way on a one way street. Anyone who is interested in what happened can read the at-the-time description and account of it that I provided everyone -- I believe it's Article 485 on my website. Both Chief Haywood and myself have been blamed for what happened to the Colorado Nine. The fact is that we both did all that we could short of standing on our heads in a public restroom to keep these good men on track.

They thought they knew better the whole time that Chief Haywood and I were pointing at the street signs. And, I will note, they still think they know better even now, when they are in prison. They still don't grasp the fact that they transgressed into a foreign jurisdiction. I carefully explained it all again and wrote to each one of them and asked them to sign paperwork acknowledging the facts and that they made a simple mistake and should receive a Presidential Pardon.

I told them to stop filing any motions with any courts and to handle everything from then on as a private matter. President Trump could have and I believe, would have, just pardoned them, if they could have demonstrated their new-found grasp of how all this works and promised not to cross jurisdictions again. But once again, they ignored my instructions, kept filing motions into foreign courts, and thereby provided evidence that no, they were still confused and therefore still likely to commit similar offenses again. In all of this, these men have been their own enemies and their refusal to listen is what has gotten them into unnecessary trouble--- not failure of any duty that I or Chief Haywood had to warn them or assist them.

So, we have struggled on without their assistance and the effort to get the Colorado Assembly organized was made harder by this epic loss, but on the other hand, the leadership that remains is leadership that learns and listens and which can succeed in navigating the maze of Rights and Responsibilities. At the end of the day, we are called to do our Public Duty, in peace, and in honor. The Continental Marshals are doing more than their fair share.

ARTICLE 34 OF 40

Article 2586: Progress Toward Reconstruction

The State Assemblies are now in high gear and building huge new presence and automated service conduits to make it easier for Americans to officially, easily, and inexpensively correct their political status by mail or online. This basic correction can be supplemented with additional paperwork for specific purposes. People are invited to investigate the options and see what additional actions make sense for them and their families. Fifty new Assembly websites are being constructed which include online training programs and individual State information and access to services that include State Credentials and Public Recording and Public Notice Service.

This is just the start. Please be patient as this is an extensive amount of work being done by an all-volunteer team and financed by direct donations. We are doing fine and “muckling” through the many obstacles, but the coordinators are extraordinarily busy and of course, so are all the members of The Living Law Firm. So, it’s stiff upper lip and tromp onward time as we shift from a small movement of dedicated researchers, historians, fiscal auditors, lawyers, and authors to a much larger and more mobile and computerized popular movement in all fifty States.

We are also building peacekeeping forces at local, state, and interstate levels via Constitutional Sheriffs, State Assembly Militias, and Continental Marshals. All of this is taking place organically, at different rates in different States, a situation that will resolve as the more standardized computer tools and learning module materials become available to every State. It’s a real grassroots American DIY Project, but I have faith in

our oddball genius to build what we set out to build and it's an exciting process. There will be announcements and contacts and all sorts of fun things going on.

All fifty Assemblies are beginning to build their New Archives with donations of digital reproductions of key historical documents and books and other records that prove everything we have brought forward and which will help educate members and prepare the Assemblies to undertake all functions they are heir to. We look forward to flying the peacetime flag and welcoming new members to the hard work and challenges of rebuilding— that is, reconstructing, American States of States, and having restored our Confederation, likewise restoring the “missing” Federal Republic. The key to this is that it is all coming forth from the people of this country — not our European led and controlled employees. This is the actual American Government as it was always meant to be.

Study notes

ARTICLE 35 OF 40

Article 2521: For the Military

The formal Military in this country exists in two subsets— active duty and reserves. For all practical purposes the “National Guard” and “State Defense Forces” of most States are part of the Active Duty Military and should be considered as “Federal” troops because they take funding from the foreign federal corporations and are “National” with regard to their States in name only. Similar to the unlawful conversion of our counties resulting from their eagerness to receive federal kickbacks in the form of Federal Block Grants, most “National Guard” units have been unlawfully converted by the same process— which is why they have been deployed “as” federal troops in places like Afghanistan. Calling them “State National Guards” when they are funded, commanded, and deployed by federal corporations is at best an evasion of these facts and a convenient means of evading constitutional and other prohibitions against foreign troops on state soil.

Bear in mind that all Active Duty U.S. Military are technically foreign troops with respect to the actual States and People whether you call them “National Guard” or “State Defense Forces” or not. Active Duty Troops domiciled as National Guard forces in each State are commanded by the State of State Governor. Active Duty Troops officially assigned to the U.S.

Military are under the authority of the President acting as Commander in Chief. So the question comes up— what do I do when I finish my tour of duty and want to return home to true civilian status? The answer for all forms of Active Duty Military personnel is the same. Once you receive your DD214 or equivalent discharge paperwork, you send a

registered letter to the head of your branch of service informing them that you are returning to your birthright political status.

You keep the letter and mailing receipts as part of your records. You are now officially separated from Federal employment and obligations and are free to join your State Assembly or resume your State National status by recording a simple Declaration. Officers need to return and resign their Commissions along with the Notice letter, otherwise they remain under obligation to the Federal Government for the rest of their lives as part of the Reserve Forces. This is, of course, a highly personal choice.

If Officers retain their commissions they cannot act as State Citizens because of their retained Federal service obligations, but they can act as State Nationals and have all their basic rights and guarantees upheld by the Assemblies. We were having trouble with false claims that retired NCO's and enlisted personnel were similarly obligated to lifetime service and engaged as volunteers serving in "civilian-military" capacities without their knowledge or consent. To put an end to these claims we have had NCO's and Enlisted personnel apply for benefits owed to such personnel and forced the Department of Defense and DOD to admit that they are NOT eligible for benefits and NOT serving in any "civilian-military connection after retiring from Active Duty. Again, the rule is— if you are maintaining ANY connection other than being fully retired from Federal military service, including any federated 'National Guard' service, you are limited to State National status and cannot serve as a State Citizen until you are actually and factually retired and all volunteer activities including reserve duty has ceased.

Upon your release from Federal U.S. service you are set free to accept a Direct Commission from The United States of America and to serve in your actual State Militia. The Reserves make up a million man Reserve Force composed of "retired but not returned" U.S. Military and federated National Guard personnel. They have chosen knowingly or unknowingly to remain in Federal jurisdiction after their formal release from active duty.

These unseen defense forces were recently summoned back to work by President Trump. In addition to these forces we have our own Peacekeeping forces in the form of our Constitutional soil jurisdiction County Sheriffs and Deputies, our actual State Militias, and our Continental Marshals Service. None of these entities are in competition with each other and ideally work together cooperatively to cover and protect people and property, borders, and assets in all jurisdictions of the law both Public and private. The actual County, State and International Postal District Forces, that is, peacekeeping forces owed to this country, have been largely defunded in recent years and operate as self funded organizations supported directly by the people of each State.

They operate on a system model similar to that found in Switzerland. State Citizens between the ages of 21-45 are either direct members of the State Militia or supporting

members. Together they help organize Public Safety and Defense Plans for their States and Citizens using the Swiss model and work as civilian peacekeepers. Older and younger members of the community serve a wide range of support activities.

Our Sheriffs can be recognized by their distinctive star badges and State Credentials. Members of our State Militias also have State Credentials issued to them by the State Assembly. The Continental Marshals function as our interface in international jurisdiction and can be recognized by their special Direct Commissions from The United States of America and their distinctive star badges with balls on the points of the stars. Recently another Direct Commission organization has been authorized to help coordinate our peacekeeping functions at all levels— The Peacekeeping Task Force.

The Peacekeeping Task Force will be visiting local communities and providing education and support for our civilian peacekeeping services, networking local constitutional Sheriffs and actual State Militias and The Continental Marshals Service together to form cohesive protection for all Americans —State Nationals and State Citizens alike. They may be recognized by their distinctive tan uniforms, their Gadsden Flag and Civil Peacetime Flag patches and Direct Commissions. In addition to the Active Duty, Reserve Duty, and Civilian Peacekeeping Forces, there are private Law Enforcement Agencies that function as Subcontractors to our Federal Subcontractors and make up a private police force designed to protect the assets of the Territorial United States and the Municipal United States corporations. These are all private security forces, aka, mercenary forces, under the direction of private and now largely bankrupt governmental services corporations.

These agencies include the DOJ, FBI, FEMA, BATF, IRS, etc. (Municipal) and their Territorial corollaries, Department of Justice, Federal Bureau of Investigations, etc. at the Federal level. All such Agency Personnel are considered Law Enforcement Agents-for-Hire, otherwise known as Pinkertons and more generally as Mercenaries and they are engaged to enforce the private codes, regulations and Public Policies of the incorporated government services providers. They are NOT supposed to be speaking to, addressing, arresting, or subjecting average Americans to their private corporate laws and statutes, but they are motivated by profit to do so. They have little or no Public Interest duty or responsibility and their activities presuming upon average Americans who are not employees or dependents of their corporations must be brought under control.

At another level, State Troopers and ‘Sheriffs’ and local police employed by incorporated entities are all Law Enforcement Officers (LEOs) and if they will not willingly obey and conform to their obligations to obey the Constitutions and the Public Law, they must be recognized as part of the problem. The situation in Minneapolis this morning is due to the brutal action of a single uniformed corporate Law Enforcement Officer acting in flagrant

disrespect of our Constitution and traditions. Not only should he and the other arresting officers be charged with crimes, fired and not eligible for rehire, but their supervisors and the politicians responsible should be sacked. Finally, the corporation employing these thugs needs to lose its charter.

City of Minneapolis and MINNEAPOLIS should both be no more. And if the State of Minnesota doesn't do its job to discipline its employees, it's charter needs to be revoked, too. We do not have to put up with this kind of behavior— not from individual men and not from the corporations that hire them. Get organized and do your part.

Study notes

ARTICLE 36 OF 40

Article 1526: For All The Jural Assemblies - 14 Sheriffs, State Militias, and Marshals

In our earlier discussion about "Committees of Safety" we discussed the issue of Sheriffs and the fact that there are two different kinds of Sheriffs --- those who are public Peacekeeping Officials and those who are private Law Enforcement Officers (LEOs)----hired guns to go with Hired Jurists, though most LEO's do not realize this and are working in the dark. Notice the difference in terminology? Officials versus Officers? The actual public officials who are Sheriffs occupy the land and soil jurisdiction of the States.

The corporate "Sheriffs" naturally occupy offices in the "County" Corporations, all operating in the international jurisdiction of the sea--- and all being entities of the same kind and status as Dairy Queen, howbeit in the business of providing "governmental services". A land jurisdiction Sheriff functioning in actual Public Office in say, Clayton County, Ohio, is the highest ranking law official in the County, bar none. Nobody outranks them. Not the District Attorney.

Not even the Governor of the State outranks an actual County Sheriff on his home turf, and certainly, neither does the Governor of any "State of State" outrank a County Sheriff. Anyone working as a "Sheriff" for any incorporated entity is a lot farther down the totem pole, too. Peacekeeping Officials of the actual land and soil jurisdiction (unincorporated) Counties outrank Law Enforcement Officers hired by incorporated "Counties" by many

orders of magnitude. The actual County Sheriff is responsible for the enforcement of the Public and Organic Law, including the actual Constitution owed to our States and the protection of the property, persons, and guaranteed rights of the people living within the borders of his County.

He only acquires his god-like powers when there is an active, qualified State Jural Assembly present in the State, and at least a few qualifying Jurors in his County to elect him. There is no exact quorum required for these County Sheriff elections, but the more people who realize the importance of joining the State Jural Assembly and thereby also "re-populating" their County, the better. I look forward to a day when all Americans fully realize how close we have come to losing our country. I also look forward to the day when the People put aside the shackles they have been living under and realize the blessings of being free again.

There won't be any arguments anymore about political status. There will be a stampede of those leaving the "US" and coming home to America. So those County Sheriffs who are Peacekeeping Officials serving the unincorporated land and soil jurisdiction Counties, are the embodiment of the Public Law and the executors of the Law of the Land and the Law of the Soil within their County's borders. All "Sheriffs" serving incorporated "Counties" as Law Enforcement Officers are obligated to come to the aid and assistance of the actual Sheriff and to obey the directions of the actual County Sheriff.

People sometimes try to make sense of this by characterizing one or the other of these different kinds of "Sheriff" in terms of being "elected" or not, but in fact, both are elected. The actual County Sheriff is elected by County Jural Assembly Members, who are also automatically State Jural Assembly Members and vice versa. The Corporate Sheriff is also "elected" but he is elected by corporation shareholders and employees who are registered to vote in the private elections of the foreign [Territorial] State of State, Inc. or even the Municipal STATE OF STATE, INC. These are two completely different kinds of "Sheriff" acting in two separate jurisdictions and two completely different capacities.

One is a Public Peacekeeping Official and one is a private corporate employee working as a "Law Enforcement Officer". Some LEO Sheriffs try their best to uphold both the Public and Organic Law of the actual County and the private "statutory law" that rules the Public Policies of the foreign corporations they work for. Sheriff Richard Mack is a good example of a LEO faithfully struggling to also fulfill the "vacated" Public Peacekeeping duty of the actual County Sheriff. His epic battle, Mack and Prinz v.

USA, Inc. is a testament to two Americans who did their best with a bad situation. That said, it has been a hard paddle swimming against the tide, as millions of unwary Americans were conscripted and "converted" without their knowledge or consent from being State Jural Assembly Members and State Electors, into functioning as mere private Shareholders in a bankrupt foreign corporation. Fortunately for us, all these

non-disclosed attempts to give away our inheritance and sovereignty "for" us by our disloyal and often clueless employees have been tainted by fraud and fraud knows no statute of limitations. Law Enforcement Officers (LEOs) as employees of private, for-profit, foreign corporations are allowed to be here and to function under what are known as "Private Security" or "Pinkerton" Laws and have the same exact authority as a Floorwalker at Walmart, except when their activities involve directly protecting the U.S.

Mail, infrastructure related to the U.S. Mail (Post Offices, Post Boxes, etc.) or the Railroads and their infrastructure--- tracks, stations, crossing lights, etc. Then they take on the character, but not the office, of Federal Marshals, and employ the same kind of "armed authority" as Federal Agents working for BATF, FBI, etc. Actual State Militias are not the same as State of State Militias.

State Militias are manned by State Citizens who are members of the State Jural Assembly. Similar to the system of the Swiss Cantons, their focus is community safety and preparedness on a statewide basis. Members are taught firearms safety, marksmanship, first aid, and train in one or more specialties. In the event of attack or natural disaster, the State Militia Commanders can call upon one or more County Militias for assistance.

They can also call upon the "State of State" Militias, the State of State "National Guard" and the local U.S. Military Commanders for assistance. State of State Militias including the State of State "National Guard" are quasi-military or paramilitary organizations manned by State of State (Territorial) U.S. Citizens who are corporate shareholders and enfranchised voters.

The actual State may employ additional peacekeeping Public Safety Officers, whose duty is to uphold the Public and Organic Law in places and in situations where the people of the State (State Nationals) need protection or assistance. These local State peacekeeping forces have traditionally gone by a variety of names --- Troopers and Rangers, for example. Like their counterparts, these men and women derive their authority directly from the State Jural Assembly and while on State land, they traditionally have absolute peacekeeping authority over everyone but the County Sheriff and in some States, the State Militia Commander. The Authority Pyramid in the actual American States goes like this: County Sheriff (Peacekeeper- Public) State Marshal-at-Arms (Peacekeeper - Public) State Militia Commander (Peacekeeper- Public) State Troopers or Rangers (Peacekeeper - Public) LEO's - Private Pinkertons, "Sheriffs" (Law Enforcement - Private) Private Detectives, Bailiffs, etc. (Can be State or State of State) And on the Federal (International) side: Federal, also known as Continental, Marshals (Peacekeeper- Public) U.S.

Marshals (Law Enforcement - Private) Agency Personnel (Law Enforcement Private) Provost Marshal (Should be a Peacekeeping Officer, but isn't currently.) It must be

understood that the authority these officials and officers have depends upon "where they stand". On the land and soil of the States, actual County Sheriffs and State Troopers and Federal Continental Marshals outrank all LEO's and Agency Personnel. Federal Marshals serve in "Districts" defined by Postal Service Districts, sometimes called "Postal Service Areas" in an attempt to avoid confusion with other kinds of Federal Government "Districts" such as "Judicial Districts" and "Military Districts". These Postal Districts often overlap several States and create one "Service District" ruled over by one Federal Marshal and as many Deputies as needed.

Actual Federal Marshals are International Land Jurisdiction Officials who are supposed to be operating under the auspices of the unincorporated Federation of States, dba, The United States of America. Their job is to coordinate efforts to intercept, prevent, and prosecute crimes peculiar to interstate/international land jurisdiction venues, including the trafficking of people and contraband, kidnapping, bank robberies, train robberies, mail fraud, consumer crimes, securitization scams, and much more. Federal Marshals work with counterparts operating in the International Jurisdiction of the Sea who are corporate employees known as "United States Marshals" or "U.S. Marshals".

These sea-going Marshals then also interface with the Coast Guard, INS, Border Patrol, FBI, etc. to coordinate efforts to detect, prevent, and prosecute crimes of inland piracy, false conversion, smuggling, international mail fraud, human trafficking across national boundaries, kidnapping, bank securities transfer schemes, drug running, and so on. The designation "Federal" goes back to the "Federation of States" that the "Federal Marshals" work for, but without our State Jural Assemblies and people knowledgeably functioning as State Citizens, the Federation has also been "de-populated" and forced to exist on fumes and volunteers. This has meant that half of our protection in international jurisdiction has been undermined for lack of our State Jural Assemblies being in full and competent operation, and that empty spot in our law enforcement shield has invited many abuses and a proliferation of crimes in specifically these grossly understaffed positions. To add to the confusion, the U.S.

Marshals have started calling themselves "Federal Marshals" -- which they are not. Similar to the case of the actual County Sheriff vs. the Corporate LEO Sheriffs, the actual Federal Marshals are Peacekeeping Officials, not Law Enforcement Officers. They work for the Federation of States, not "federal" Territorial or Municipal corporation subcontractors. Here, too, is a lot of confusion.

The Federal Government is supposed to be composed of three (3) branches --- (1) the actual Federal States of States (which have been mothballed since 1868), (2) the Territorial United States Government, and (3) the Municipal United States Government. All these entities operate exclusively in the International Jurisdiction of the Sea, but there is another "Federal" Government, that which operates the International Jurisdiction of

the Land owed to this country. The adjective "Federal" actually refers to the "Federation of States" --- the same States that are operated by the State Jural Assemblies. Our States formed their unincorporated Federation of States, The United States of America, on September 9, 1776.

This is the Holding Company called a "Union" that operates the mutual International Land Jurisdiction functions of the States, so where more than one State is concerned, Federal Marshals are hired by The United States of America to act as Peacekeeping Officers. Notice that while actual elected County Sheriffs are called "Peacekeeping Officials", Federal Marshals are hired -- not elected -- and serve as "Peacekeeping Officers" employed by the Federation of States doing business as The United States of America. As Americans have awakened and "returned" to the land and soil jurisdiction States of the Union, and our State Jural Assemblies have booted up, so has The United States of America been revived. In 2015, we organized a new group of Federal Marshals, and in hopes of avoiding any more confusion between the sea-going "Federal Government" and the U.S.

Marshals and the land-retaining Federation of States, we renamed the service: The Continental Marshals Service. Almost immediately, more confusion arose. The Continental Marshals Service is unincorporated, and these Federation of States Peacekeeping Officers outrank all U.S. Marshals and Agency Agents when standing on the land and soil of the States.

Like the actual County Sheriffs, these men and women derive their authority from the Jural Assemblies of the States acting as a Federation of States and from the Public and Organic Law, not from any incorporated entity and not from any statutory law. The Continental Marshals, like the old Federal Marshals, are Peacekeeping Officers of the Land and Soil, not Law Enforcement Officers of the Sea. Another kind of Marshal is important to the proper functioning of the Land and Soil Government owed to the American States and People: the Provost Marshal. This Office, too, has been grossly undermined and misconstrued by long abuse by corporate interests.

Today, Provost Marshals are basically US Military Attorneys, operating as "liaison" officers and public affairs duty officers for the U.S. military. They come out of their hide-holes when a soldier goes off base and harms a local person, but largely ignore their actual and original duty as International Land Jurisdiction Peacekeeping Officers meant to act as Coordinators between the Federation of States and the U.S. Military. Our American Government has always been supportive of the U.S.

Military, but the two are not one- and-the-same. When in place on military bases located on our land and soil jurisdiction States, the U.S. Military is here as a guest, not as an Army of Occupation, as has too often been misconstrued and assumed by foreign interests. There are occasions when the Provost Marshal, who is supposed to be acting as

a Peacekeeping Officer for The United States of America, needs to run interference or coordinate activities between local State Officials, County Sheriffs, State Militia leaders and so on.

The usurpation and mis- management of this position by foreign corporate military interests is a bone of contention to be resolved with the Territorial Government. We must make it very clear that our States are the ultimate Employers of the U.S. Military and have never been anything else. The "States of States" that fought the Civil War on our soil were business entities operated by the States of America (Confederation), not The United States of America (Federation).

We had no dog in the fight and by no stretch of the imagination can our States or People be considered rebels, insurrectionists, enemies, or terrorists. Finally, each State has a Marshal-at-Arms, who is responsible for the security of the State Jural Assembly, its records, its Officers, and its Membership during meetings, also for securing the Meeting Place prior to and immediately after meetings, and for Coordination of the County Militias with the State Militia. This is a very busy and important job. The Marshals-at-Arms for each State, like the leaders of the actual County and State Militias, are responsible for outreach and education of their counterparts in the U.S.

Military, U.S. Marshals Service and LEO/law enforcement communities. The Sheriffs are the key Peacekeeping Officials in each County and are among the first State Citizens elected to Public Office. As this brief overview shows, the actual People have been very poorly informed and even more poorly served regarding the differences between "peacekeeping" and "law enforcement" services.

As State Jural Assemblies have ceased to operate properly, more and more jobs have been taken over by incorporated foreign entities which have not been held to any solid standards of performance. In some cases, we have mob-linked corporations providing us with law enforcement services. It doesn't take rocket science to figure out the consequences of this situation. The promulgation of private often foreign controlled "security services" corporations has left the situation not only confused, but in some cases, the absence or scarcity of the public peacekeeping forces has left whole sectors of our international jurisdiction unprotected or grossly undermanned.

This has resulted in very significant increase of crime. Human trafficking, drug smuggling, mail and telephone fraud, counterfeiting, patent theft, identity theft, credit fraud, securities fraud, interstate bank fraud and numerous other crimes that are peculiar to international jurisdiction have skyrocketed because the International Land Jurisdiction turf of the old Federal Marshals has been vacated and neglected. U.S. Marshals have been underfunded and misdirected and understaffed so that they have not covered --or been able to cover -- the international land jurisdiction as well as their own responsibilities.

This may be a matter of misplaced oversight, or another example of "accidentally on purpose" neglect being practiced by criminal elements that have had a much freer hand to operate since the old Federal Marshals program was phased out. With the State Jural Assemblies coming back online and being brought up to speed, we can once again enforce the Public and Organic Law that the American States and People are owed. With your help, as observers and researchers, and with your participation in the State Jural Assemblies and Militias, we can enforce the actual Public Law, fill the gaps by hiring new Continental Marshals to cover our International Land Jurisdiction, and greatly improve the security and peace of our local communities.

ARTICLE 37 OF 40

Article 2528: Clarification

We are not issuing nor authorizing any "call to arms". I have explained the mission of The Peacekeeping Task Force succinctly and for the record. Evaluate. Train.

Coordinate. I have also made it clear that people who want to live as "undeclared persons" and live under rocks and eat dirt out in the woods as some kind of outlaw brigade can't be part of our Assembly Militia. Only members of the State Assembly can participate. We are here to educate everyone about the proper exercise of arms and community public safety, so everyone is invited to Public Meetings about these topics, including the Federales if they want to come.

That said.... We are not here in any "unofficial" capacity. This is the actual government of this country and it must be respected as such. In return for that respect, we don't do any snake-eyed, behind the bushes stuff, and we don't mean to make our organizational efforts sound like emergencies.

We did not declare any emergency related to the Covid-19 mess and we are not declaring any emergency related to the riots now. We are simply seeing the urgent need to proceed with the evaluation, training, and coordination of our citizenry and community resources. The actions taking place in cities where riots have erupted are addressed to people who are 99% identified as and standing as foreign Territorial and Municipal citizens. Therefore, the Territorial and Municipal Governments are stuck addressing the situation and protecting us from a lot of angry and ignorant Americans who are fed up with THEIR government.

In keeping with what I have been trying to teach all of you for months about staying in your own lane --- THEY are responsible for THEIR riots, including the damage that THEIR riots cause to our infrastructure and our people. Remember --- this is Your Government. We are responsible for protection of our State Nationals and State Citizens, those who have declared their birthright political status and who have returned to the land and soil and who are owed their Constitutional guarantees. The essence and mission of our Peacekeeping Task Force is-- and I repeat --- to: (1) evaluate; (2) train; and (3) coordinate our Sheriffs, our Assembly Militias and our Continental Marshals-- to prevent crimes in our jurisdiction and protect our people and their assets.

This is about, and for, those people who declare their birthright political status as Americans and who join their State Assemblies. That's why it's called a State Assembly Militia. It operates under the authority of the State Assembly and is composed of State Citizens and is not any kind of "unorganized" militia.

Study notes

ARTICLE 38 OF 40

Article 1257: Light Unto the Peacekeepers

I keep getting indications that desperate people are trying to organize their own local peacekeeping forces to enforce the Public Law, but they are often confused about how they can do this and how their activities are different from those of all the "law enforcement personnel". Just as there are "Americans" and "U.S. Citizens", there are "Peacekeepers" and "Law Enforcement Officers". You must get it straight in your own minds who you are and under which system of law and government you are functioning---and work within that system, or you will be arrested and prosecuted.

Any ignorance must be thwarted and overcome and your own proper paperwork established BEFORE you embark on a career as a Peacekeeper. Just this morning I got an email from a group of would-be Peacekeepers in Colorado who made the mistake of trying to order "law enforcement" badges, and who were fortunately rebuffed by the manufacturers of these items. They do not know how lucky they are, that the badge manufacturer warned them. Here is what I told them-- and I quote: We do not need badges.

We need stars. The Five Pointed Star with the fifth point pointing straight up is the emblem of our Sheriffs and Marshals and they are not "law enforcement officials" but are "peacekeepers". The symbology goes back to the fact that Americans live under the Law of Men and US Citizens live under The Rule of Law. The upward pointing Five Pointed Star is the symbol of Mankind, thus the proper emblem for us and our system of Law---not corporate badges.

There is no confusion about who you are or what system of law you are enforcing so long as you know these emblems and facts. These people are correct in refusing to issue "badges" to peacekeepers. The peacekeepers have to become knowledgeable enough about who they are and what their role is and what their Law is that they don't ask for or expect badges. Our American Common Law emblem is a Silver Star, 5 Points, with the Fifth Point Straight up, with the name of the Office inscribed/indented, "Sheriff" for example, and the name of his political domain, "Montrose County, Colorado" for example, on a ring encircling the star.

The ring encircling the Star and the statement of the domicile of the Office gives Notice that the Office is "limited" to the physical parameters of that County. [Remember that land offices, unlike sea offices, are rooted within and limited to specific geophysical boundaries.] You can use the same Star and designation for our United States Continental Marshals. In that case the circle of metal around the Star would say, "United States Marshal" and "Third Postal District" for example. We are not acting as incorporated entities so we never use all-capital letter designations at all. "JOE BLOW" denotes only two things: (1) the estate of a dead man; or, (2) an incorporated entity.

Living men never use all caps for any purpose but these--and since we are not operating in either capacity, we use only Upper and Lower Case Names for Offices and Place Names. That's why these are "Proper Nouns"-- any other use or style is "improper". Likewise, never use the word "of" as in "State of Colorado" or "County of Jackson". "Of" means apart from or aside from or belonging to whatever follows it.

Your State is Colorado. Just that. Period. Your County is, for example, Montrose County.

Put those words on your Star and the have no excuse for making any presumptions or complaints against you nor any cause to object--- presuming of course that you have your own claims in order and on the record and have given the District Attorney Notice of your Non-Incorporated Standing prior to assuming your Peacekeeping Office. Peacekeepers act as men enforcing the Public Law of this country. Law Enforcement Agents and Officers are private security personnel enforcing the private law of governmental services corporations on the employees and dependents of those corporations. Period." I will follow that up with some additional important pointers for Peacekeepers and Law Enforcement Officers, too: 1.

Peacekeepers always outrank all Law Enforcement Officers (LEO's) when dealing with issues that impact living people on American soil. Always, without exception. The County Sheriff can tell any "US MARSHAL" to take a hike. 2.

The only issues to be determined are--- (1) are we dealing with people who have chosen to act as living people, that is, as Americans, or (2) are we dealing with people who have knowingly and voluntarily chosen to act as officers, employees and/or dependents of

foreign governmental services corporations--that is, as "U.S. Citizens"? 3. As this has been considered to be a political status and a matter of private choice in the past, the only way to tell the difference between "Americans" and "U.S.

Citizens" or "citizens of the United States" has been whether or not the man or woman's name has been registered as a "U.S. Corporation" or not. 4. We are finding that a great many of these registrations have been falsified and put in place without the knowledge or consent of the actual Possessors of the underlying Trade Names, which results in Americans being chronically and unconscionably misidentified as "U.S.

Citizens"---and deprived of their natural and unalienable rights and constitutional guarantees, misaddressed by Law Enforcement personnel, railroaded into U.S. Court venues that have no actual jurisdiction over them, and subjugated under foreign private statutory law. Peacekeepers have the right and the duty to claim jurisdiction for anyone who maintains their identity as a living American. 5.

Peacekeepers and the people they serve need to establish their identity as the actual owners of their Given Trade Names and record these facts on the public record. Also as a result of the widespread false registration problem, Americans need to give Notice of their Non-Corporate Status and Standing on the Public Record and stand ready to provide such proof of status and standing to Law Enforcement Officials---otherwise, LEO's presume that everyone they meet is subject to the statutory laws they enforce. 6. Peacekeepers enforce the Public Law, including the provisions of the Constitution owed to Americans, the Unrevised United States Statutes-at-Large, and the General Session Laws.

They do not enforce Statutes, Codes, or Regulations of any kind. That is the duty of Law Enforcement Officers, and Law Enforcement Officers are only supposed to be addressing other "U.S. Citizens" --- not Americans. A seminal U.S.

Supreme Court case, *Mack and Printz v. USA, Inc.*, has established that Law Enforcement Officers may, if they so choose, enforce the Public Law and uphold the Constitution(s), but it is not in their job description and many of them fail to honor the Public's trust. 7. Peacekeepers except for The United States Continental Marshals work exclusively for and with Public Courts operating under American Common Law and under the supervision of Justices and Justices of the Peace.

The United States Continental Marshals work for Postal District Courts under the auspices of The United States of America [Unincorporated] and the supervision of Postal District Judges. It goes without saying that many, though not all, Americans, have been purposefully misinformed and dumbed down about these and other issues of law and jurisdiction and the proper functioning of our government ---- including LEO's and members of The American Bar Association and The United States Bar Association. Final

Note....getting back to the problem of securing proper identification for Peacekeepers in each of the States of the Union: It is in keeping with our tradition that each State and County has its own recognizable Five Pointed Star emblem, according to Trade Name and applying within the recognized geographic boundaries. These star emblems are allowed their own distinctive hallmarks, designs, colors, texture pattern and other embellishments added to the basic Five-Pointed Silver Star.

These distinctive "Sheriff's Stars" can be worn as a pin over the left breast or carried in a leather wallet designed for the purpose. They should be made of actual silver and in addition to the Proper Name of the Office such as "Sheriff" or "Deputy" and the name of the County and/or State, should have distinct identifying information incised or permanently engraved on the back of each star. For example, the Peacekeeping Sheriff of Montrose County, Colorado might bear the inscription: Joseph Layne Alexander, Peacekeeping Sheriff, Montrose County, Colorado, J.L.A.19560909TNTUSA, standing for "Joseph Layne Alexander, born September 9, 1956, Tennessee, The United States of America [Unincorporated]." Every element of the design should be strictly defined, including the size and the type font used for inscriptions. Traditionally, Sheriff's Stars have been made by jewelers commissioned to make the pins and the jewelers have further authenticated them by adding their own "Maker's Mark" to the back of the Star.

Temporary Deputy Stars are traditionally numbered and issued according to a written rollcall record that keeps track of which pin is issued to who and for what time period using a sign in/sign out log. This allows the Sheriff to issue identification to Temporary Deputies as needed. And one final note -- Peacekeepers do not take "Oaths" which are part of religious ceremonies and they do not swear or pledge "Allegiances" which are part of ancient feudal practices of giving allegiance to a king. Peacekeepers are not Bonded by Surety Bonds.

Those are all provisions that may or may not be work requirements for Law Enforcement Officers depending on which governmental services corporations they are working for--- but in no way apply to Peacekeepers. The so-called "swearing in" of deputies so often depicted in old Hollywood Westerns is not actually an "oath taking" and is instead a Public Acknowledgment in which the man accepts the responsibilities of the Office he is entering as a Peacekeeper in front of two or more Witnesses. There is no mention of any "God" involved, as our lawful government maintains separation between Church and State. This Public Acknowledgment is sometimes done by a whole large group of men at once, each and all witnessing the others, and then they hit the leather and ride off to catch bad guys as a Posse.

Far more typically, men are elected as Deputies and do their Public Acknowledgment in front of the Sheriff and a Justice of the Peace under far less dramatic circumstances. The purpose of this is to set forth in short order what the duties of a deputy or sheriff are, and

for the office holder to make public admission that: (1) he or she is aware of what the duties are, and (2) that he or she accepts the responsibility to perform those duties in good faith. This creates a Public Record of the Office Holder's commitment and accountability --- to the General Public in the case of Peacekeepers, and to their corporate employers, in the case of Law Enforcement Officers. As always, rights go with responsibilities, and roles are defined by the duties of the Office and the jurisdiction within which an Office operates

Article 2540: Self-Governance

Inevitably, if you have grown up in this country, there comes a day when the dissonance between the fact and the fiction becomes self-evident. That moment can be summed up as — you are constantly being told that you are free, but you realize that you are not free. Instead, you are being bossed around and herded and threatened by your own public employees. And though this may both anger and scare you, you are not likely to know what to do about it.

Looking at what appears to be the monolithic power of the U.S. Government you may feel that there is absolutely nothing you can do about it short of a suicidal armed insurrection or trying to run away so far into the boondocks that even Uncle Sam's satellites cannot find you. Good luck with that. So, the first choices that come readily to mind once you realize that you are a slave or at best an indentured servant — are not comforting at all: (1) continued peonage and enslavement; (2) suicidal armed insurrection or (3) flight.

There is a Fourth Choice: self-governance. You have heard those words before but most likely never thought much about what they mean or imply. Stop a moment right now. Realize that you have been standing around letting other people govern you all your life.

After your parents and your pastors and your teachers came the politicians and the bureaucrats and the agency goons. They all taught you to obey and comply and fear punishment if you didn't. Chances are you have never learned much, if anything, about self-government— and the idea that it is a legitimate and safe alternative to a life of enslavement is probably foreign to you..... but it is true. It's what you are guaranteed, if

you choose to exercise that option and take responsibility to self-govern your world—beginning with yourself.

The reason you don't have control is that you are Missing in Action, lost at sea. You are supposed to be self-governing, deciding everything, declaring your political status, assembling your State Assemblies, staffing your own courts and jury pools, manning your State militias. Yeah, you. There on the couch.

So, the rest of us woke up and found the keys to the insane asylum doors. We are doing what needs to be done. We are self-governing and peaceably ending the Corporate Feudalism that was planned for us. We are taking back the rights by accepting the responsibilities.

But where are you? Still sitting on the couch? If you want freedom— actual freedom— and you want to come home to an America you recognize, a place where sodomy is not taught to four year-olds in school, and where you pay for your own lunch, hey, if that sounds good.... Welcome home.

We need numbers added to the Vermont, North Dakota, and West Virginia State Assemblies. We've populated those states but now is the time to bulk up the State Assemblies and make them hum like three little buzz saws. If you are sick and tired of the Swamp and the Swamp Creatures and the Night of the Living Dead Parrotime "News" casts, and all the rest of it—stand up. Get off the couch.

Do your part. Think. Act. Correct your political status records.

Join your State Assembly. Contribute. Self-govern. Go to:
www.TheAmericanStatesAssembly.net and start self-governing today.

Send a donation for our constitutional sheriffs, state militias, and Continental Marshals who are standing here, many of them unpaid, to keep you safe. Send another donation to help set up your own civilian court system. It's long overdue and will put an end to all the harassment and pillaging of private property that has gone on— the illegal mortgages and equally unlawful foreclosures, the crooked banks, the theft of our children by bureaucrats working for foreign corporations masquerading as "the government" — and so much more. To all of you who have been sitting around waiting for one man, Donald Trump, to drain the swamp— it's time to grab your own shovels and buckets.

ARTICLE 40 OF 40

Article 2683: Defund the Police? Really?

At the rate things are going, there won't be any police left to defund. Many veteran police officers are simply fed up and leaving their jobs. Let's face it, being a police officer isn't exactly easy or safe. And when certain elements in the populace turn hostile to the extent exposed by the recent riots---and the rest of the people say and do nothing in support --- what do you expect to happen?

I've had policemen all over this country tell me flat-out: "Grandma, the only reason I am still here, is because I know that if I leave, I am just making it harder and more dangerous for the guys that stay." The even worse part of it, is that "police" as opposed to our "peacekeepers" are actually acting in a totally private capacity, because they are working for private, for-profit "State of State" and "Municipal" and "City" and "Federal" and "Agency" corporations. Sure, they have badges and uniforms, but in terms of their legal capacity, they are working as private security forces for foreign, for-profit corporations under Pinkerton Laws. The Law Enforcement Officer (LEO) Sheriffs working for incorporated "Counties" have no actual Public Office, and as the U.S. Supreme Court case, *Mack and Prinz v.*

USA, Inc. put it, it is up to their "discretion" whether or not they defend and support the Constitutions---and your Constitutional rights---at all. You are paying for their services, but they aren't obligated to serve you. In fact, serving you is the last thing on their corporate bosses' minds. So if these brave men and women use their "discretion" to

defend you, they often face demotions and flak from the corporate higher ups and from some of their cohorts, too.

"I thought I was being smart," one Police Sergeant told me. "I thought --- go along to get along. Keep the pension. Wife and kids depending on me...." When he finally used his "discretion" and refused to enforce foreign codes and statutes against Americans, refused to evict people from their homes based on fraudulent commercial claims, he was fired ---"not eligible for rehire".

I am not gilding any lilies, folks. Except for private corporate Risk Management insurance, the Law Enforcement Officers have no bonds, no insurance. They are totally, 100%, personally and commercially liable, and when push comes to shove--that is, when they are given Bad Orders by the corporate bosses, guess who's butt is really on the line? Theirs.

No wonder thousands of them are waking up and shuffling on down the road. "Beats being dead, beats being spit on to defend the bastards in charge," as one Detective Lieutenant told me, just minutes before he chucked his badge. To get a taste of what these men and women face in real life, and why so many of them are walking, watch Clint Eastwood's film, "Richard Jewell". What happens when there are no police left?

Then it's up to us to defend ourselves and our families and our communities and our States of the Union. It's up to us to take up and exercise our lawful offices and jurisdictions to do it, just like the old days. The Peacekeepers have arrived. And I can tell you that there are a great many Law Enforcement Officers who are very glad to see us.

Our Peacekeeping Forces occupy the land and soil jurisdiction of this country and work directly for The United States of America---- the unincorporated Federation of States, the States, and the People. We occupy our lawful State and Federal Offices. We accept our Public Duty. We carry Public Bonds.

We carry Public Guns. And yes, those are real Stars you are seeing. The Continental Marshals are replacing the old Federal Marshals Service that was defunded and working our international jurisdiction on the land, addressing interstate crimes. The State Assembly Militias are the "well-regulated" militias we are guaranteed.

And our State Assembly Sheriffs are still the supreme elected peacekeeping officials standing on the soil jurisdiction of our unincorporated Counties. If some ignorant wet-behind-the-ears corporate attorney tries to tell you anything different, you have the Public Duty to give them a free Public Education.
